Figure 3. Losses by Industrial Composition

Losses Over Income by Year for Finance, Manufacturing, and Information industries.
Figure 8. Losses Over Income: The Impact of Adjustments

The graph shows the trend of losses over income from 1982 to 2004. The "Unadjusted" line indicates the trend without any adjustments, while the "Adjusted" line shows the impact of adjustments over time. The graph highlights the significant increase in losses over income around the year 2000.
Figure 12. S Corporation Share of Net Corporate Income

S Corporation Share of Net Corporate Income over years 1982 to 2004, showing the share of S corporations among all corporations and nonfinancial corporations.
