The Bureau of Economic Analysis (BEA) publishes annual estimates of state 
disposable personal income, the difference between state personal income and 
state personal current taxes. BEA also publishes annual estimates of personal 
income for sub-state areas, but BEA does not publish corresponding estimates of 
disposable personal income (DPI) due to the absence of estimates of taxes. This 
paper uses the methodology presented in an earlier working paper to revise and 
update the estimates of disposable personal income for the current 363
