In 2017, Texas real GDP grew 1.3 percent; the 2016-2017 national change was 2.2 percent. The 2007-2017 compound annual growth rate for Texas real GDP was 2.4 percent; the compound annual growth rate for the nation was 1.5 percent.

GDP by State for Industries

In 2017, the largest industry in Texas was finance, insurance, real estate, rental, and leasing. This industry accounted for 15.5 percent of Texas GDP and had a 0.8 percent real decline. The second largest industry was professional and business services, which accounted for 11.8 percent of Texas GDP and had 4.3 percent real growth.

The largest contributor to real GDP growth in Texas was professional and business services. This industry accounted for 0.50 percentage point of the total growth in real GDP. The second largest contributor was transportation and warehousing. This industry accounted for 0.49 percentage point of the total growth in real GDP.*

* The industry contributions, or sum thereof, may be larger than 100 percent (and the percentage points larger than the percent change) because growing and declining industries offset one another.
