

- Texas had the highest planned total employment for greenfield investments initiated by foreign investors in 2019. When complete, these establishments and expansions plan to employ 1,700.
- Alabama (1,200) and Ohio (1,100) had the second- and third-highest planned employment for greenfield investments initiated in 2019.
- Forty-six states and the District of Columbia had planned employment from greenfield investments initiated in 2019.

Other BEA statistics on Foreign Direct Investment in the United States

BEA publishes three sets of statistics on foreign direct investment in the United States: (1) new foreign direct investment statistics, (2) foreign direct investment transactions and foreign direct investment position statistics, and (3) activities of multinational enterprises statistics. More information about the relationship between these three sets of statistics can be found on [BEA's website](#).
