SURVEY OF
CURRENT BUSINESS

JUNE, 1929

No. 94

ISSUED BY
BUREAU OF THE CENSUS

IMPORTANT NOTICE

In addition to figures given from Government sources, there are also incorporated for completeness of service figures from other sources generally accepted by the trades, the authority and responsibility for which are noted in the "Sources of Data" on pages 139-142 of the February, 1929, semiannual issue

INTRODUCTION

The SURVEY OF CURRENT BUSINESS is designed to present each month a picture of the business situation by setting forth the principal facts regarding the various lines of trade and industry. The figures reported are very largely those already in existence. The chief function of the department is to bring together these data which, if available at all, are scattered in hundreds of different publications. A portion of these data are collected by Government departments, other figures are compiled by technical journals, and still others are reported by trade associations.

At semiannual intervals detailed tables are published giving, for each item, monthly figures for the past two years and yearly comparisons, where available, back to 1913; also blank lines sufficient for six months have been left at the bottom of each table, enabling those who care to do so to enter new figures as soon as they appear (see February, 1929, issue). In the intervening months the more important comparisons only are given in the table entitled "Trend of business movements."

WEEKLY SUPPLEMENT

Realizing that current statistics are highly perishable and that to be of use they must reach the business man at the earliest possible moment, the department has arranged to distribute supplements every week to subscribers in the United States. The supplements are usually mailed on Saturdays and give such information as has been received during the week ending on the preceding Tuesday. The monthly information contained in these bulletins is republished in the SURVEY, and the supplements also contain charts and tables of weekly data.

RELATIVE AND INDEX NUMBERS

To facilitate comparison between different important items and to chart series expressed in different units, relative numbers (often called "index numbers," a term referring more particularly to a special kind of number described below) have been calculated. The monthly average for 1923-1925 has usually been used as a base equal to 100.

The relative numbers are computed by allowing the monthly average for the base year or period to equal 100. If the movement for a current month is greater than the base, the relative number will be greater than 100, and vice versa. The difference between 100 and the relative number will give at once the per cent increase or decrease compared with the base period. Thus a relative number of 115 means an increase of 15 per cent over the base period, while a relative number of 80 means a decrease of 20 per cent from the base.

Relative numbers may also be used to calculate the approximate percentage increase or decrease in a movement from one period to the next. Thus, if a relative number at one month is 120 and for a later month it is 144 there has been an increase of 20 per cent.

When two or more series of relative numbers are combined by a system of weightings, the resulting series is denominated an index number. The index number, by combining many relative numbers, is

designed to show the trend of an entire group of industries or for the country as a whole, instead of for the single commodity or industry which the relative number covers. Comparisons with the base year or with other periods are made in the same manner as in the case of relative numbers.

RATIO CHARTS

In most instances the charts used in the SURVEY OF CURRENT BUSINESS are of the type termed "Ratio Charts" (logarithmic scale), notably the Business Indicator charts on page 2. These charts show the percentage increase and allow direct comparisons between the slope of one curve and that of any other curve regardless of its location on the diagram; that is, a 10 per cent increase in an item is given the same vertical movement whether its curve is near the bottom or near the top of the chart. The difference between this and the ordinary arithmetic form of chart can be made clear by an example. If a certain item having a relative number of 400 in one month increases 10 per cent in the following month, its relative number will be 440, and on an ordinary chart would be plotted 40 equidistant scale points higher than the preceding months. Another movement with a relative number of, say, 50 also increases 10 per cent, making its relative number 55. On the ordinary (arithmetic) scale this item would rise only 5 equidistant points, whereas the previous item rose 40 points, yet each showed the same percentage increase. The ratio charts avoid difficulty and give to each of the two movements exactly the same vertical rise, and hence the slopes of the two lines are directly comparable. The ratio charts compare percentage changes, while the arithmetic charts compare absolute changes.

RECORD BOOK

As an aid to readers in comparing present data with monthly statistics in previous years, the department is compiling a RECORD BOOK OF BUSINESS STATISTICS, in which data now carried in the SURVEY OF CURRENT BUSINESS are shown by months as far back as 1909, if available. Full descriptions of the figures and reports of how the data are used in actual practice by business firms are contained in the RECORD BOOK. The sections covering textiles and metals have already been issued and may be obtained for 10 cents per copy from the Superintendent of Documents, Government Printing Office, Washington, D. C. (Do not send stamps.) Notices of other sections will be given in the SURVEY as they are issued.

METHODS OF USE

Methods of using and interpreting current business statistics have been collected by the department from many business concerns and are described in a booklet entitled "How to Use Current Business Statistics," together with methods of collecting statistics. This booklet may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 15 cents per copy. (Do not send stamps.)

This issue presents practically complete data for the month of April and contains text covering the early weeks of May (page 1), for which the basic figures in table and chart form are presented regularly in the weekly supplements. As most data covering a particular month's business are not available until from 15 to 30 days after the close of the month, a complete picture of that month's operations can not be presented at an early date, but the weekly supplements give every week the latest data available.

SURVEY OF CURRENT BUSINESS

PUBLISHED BY

UNITED STATES DEPARTMENT OF COMMERCE

Subscription price of the SURVEY OF CURRENT BUSINESS is \$1.50 a year; single copies (monthly), 10 cents, semiannual issues, 25 cents. Foreign subscriptions, \$2.25; single copies (monthly issues), including postage, 14 cents; semiannual issues, 36 cents. Subscription price of COMMERCE REPORTS is \$4 a year; with the SURVEY, \$5.50 a year. Make remittances only to Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft. Currency at sender's risk. Postage stamps or foreign money not accepted

PRELIMINARY SUMMARY FOR MAY

Commercial transactions in May, as indicated by check payments for the early weeks of the month, were larger than in the corresponding period of 1928. Industrial activity, as reflected by the operations in steel plants, was higher than in either the preceding month or May of last year. The output of bituminous coal and lumber was also running at a higher level than a year ago. The volume of building contracts awarded during the month, as based upon early data, was somewhat smaller than for either the previous month or the corresponding month of last year.

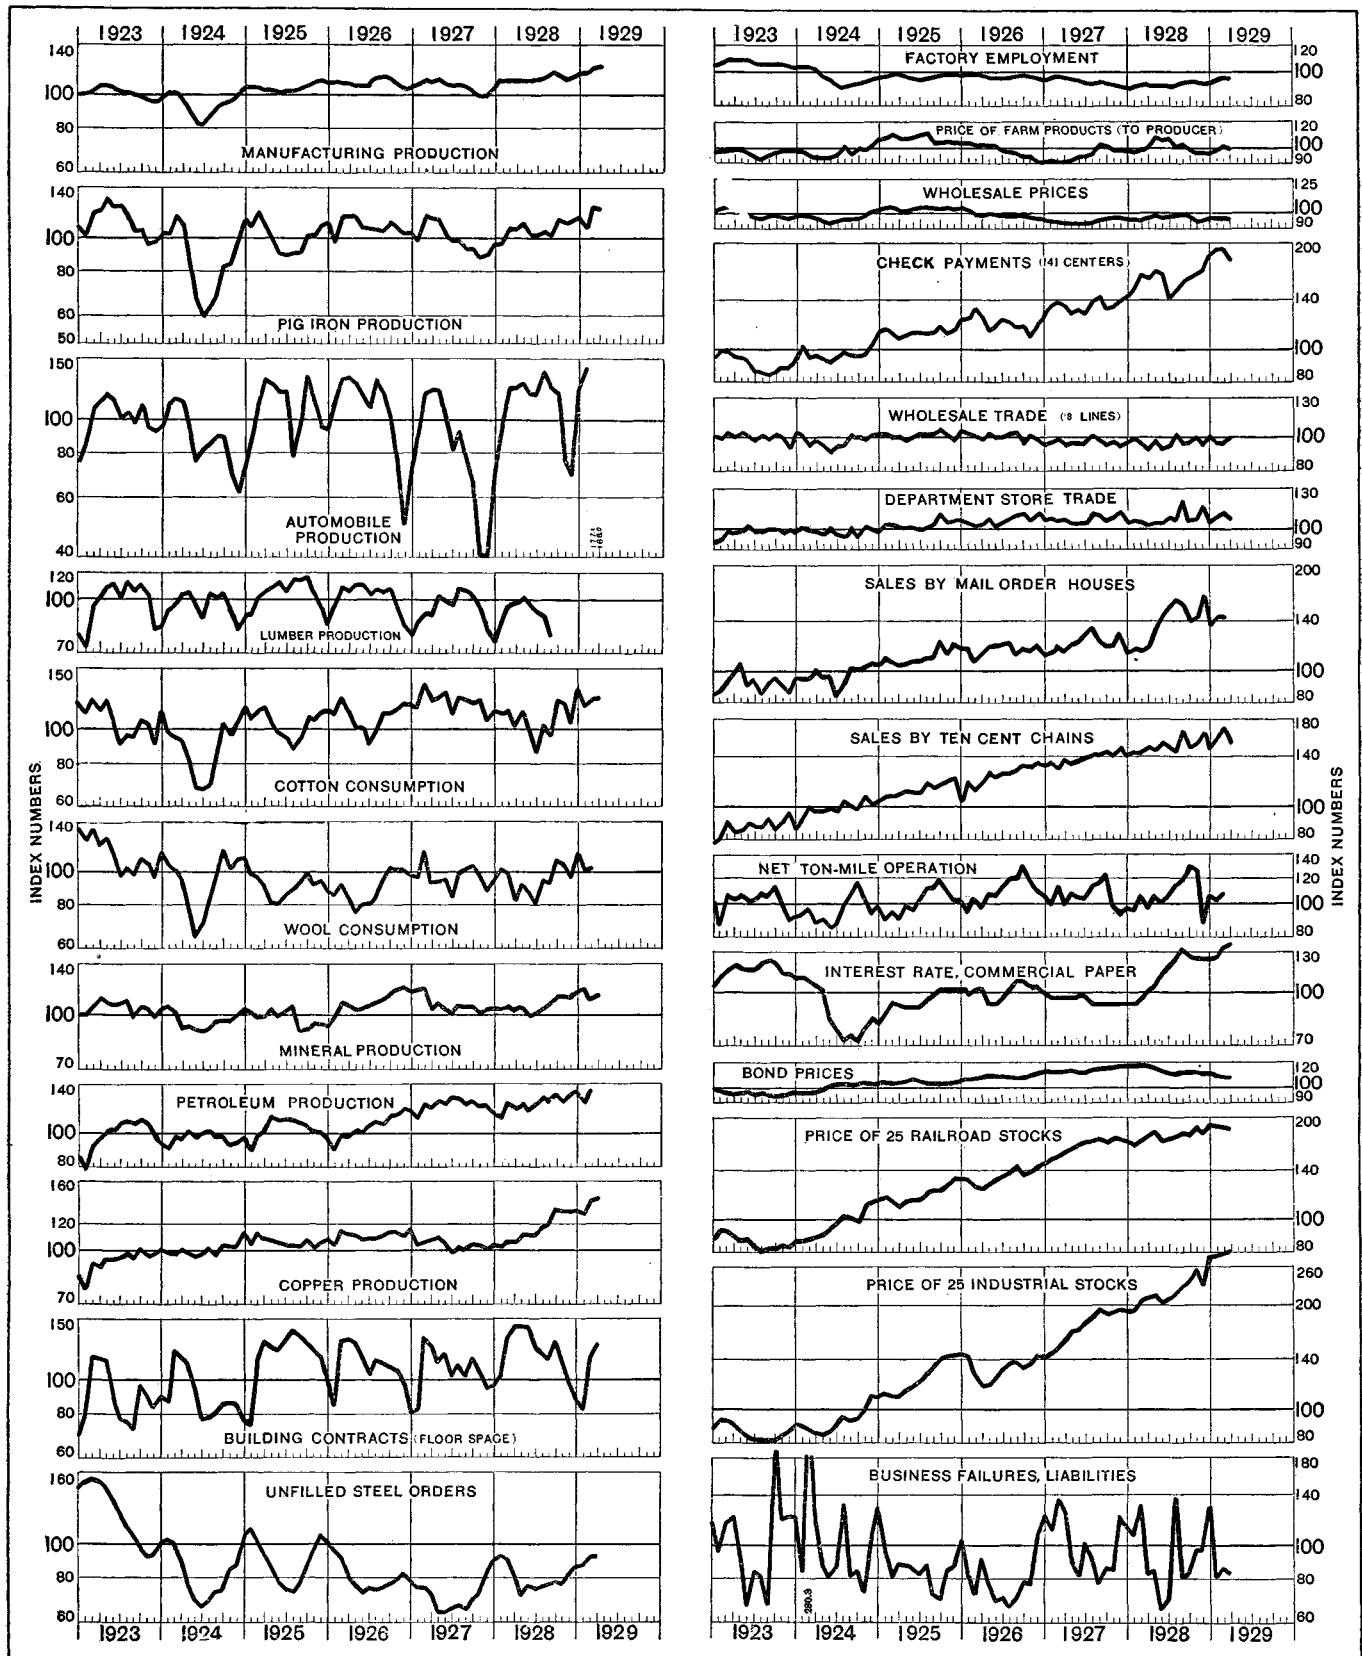

Bank loans and discounts, as reported by the Federal reserve member banks at the end of May, were somewhat lower than at the end of the previous month, but were higher than a year ago. Interest rates on call money were slightly higher than during the previous month and much higher than a year ago. Time money rates were also at a higher level than for either

prior period. Stock prices reached a new high level during the early part of May, followed by a recession at the end of the month, but were higher than a year ago. Prices for bonds declined gradually during the month and were substantially lower than in May, 1928. Brokers' loans advanced from the April level and were well above that of a year ago. The Federal reserve ratio advanced steadily during the month and was substantially higher than in May, 1928.

The primary distribution of goods, as reflected by car loadings, was larger than during either the previous month or the corresponding month of last year. The general index of wholesale prices showed a decline from both prior periods. Prices of wheat and cotton also declined both from the previous month and the corresponding month of last year. Steel prices, on the other hand, were above those for both prior periods.

MONTHLY BUSINESS INDICATORS, 1923-1929

[Ratio charts—see explanations on inside front cover. The curves on check payments, wholesale trade, sales of mail-order houses and 10-cent chains, and department stores have been adjusted for normal seasonal variations, and manufacturing production for the varying number of working days in the month as well]

MONTHLY BUSINESS INDICATORS

The principal business indicators are shown below, all calculated on a comparable basis, the average for the years 1923 to 1925, inclusive. Thus the table gives a bird's-eye view of the business situation in a concise form, so that trends of the principal indicators may be seen at a glance.

Certain indicators, in which there is a marked seasonal movement, are shown with the average seasonal variations eliminated, as noted below. In this manner a more understanding month-to-month comparison may be made.

* Seasonal adjustments.

BUSINESS CONDITIONS IN APRIL

PRODUCTION

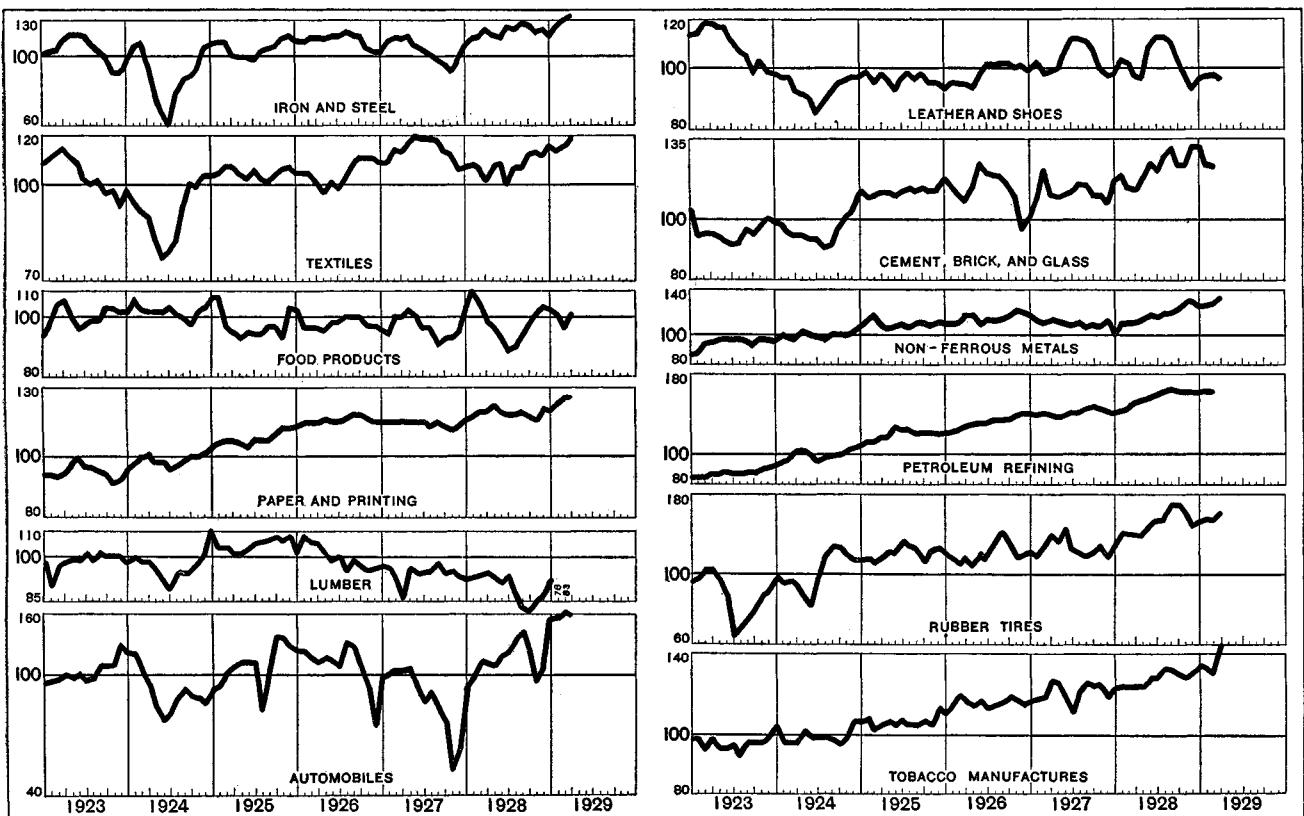

Industrial production in April, after allowances for seasonal conditions, was greater than in either the preceding month or April, 1928. The principal gains in manufacturing over the previous month, after seasonal allowances, occurred in food products, rubber tires, and nonferrous metals. As compared with last year, all groups showed larger output, except leather and shoes, which declined. Larger mineral output was registered than in either the preceding month or April a year ago, all of the principal products of the mine showing gains over both periods, except petroleum,

month, but showed an advance of 9 per cent over a year ago. As compared with the previous month, wholesale trade by lines showed a gain in groceries and hardware. Declines were registered in meats, dry goods, men's clothing, boots and shoes, and furniture. As compared with a year ago, all lines showed gains, the largest increases being registered in dry goods, men's clothing, and hardware.

Retail trade as indicated by sales of department stores was lower than in March, but greater than a year ago. Department store stocks showed a gain over the previous month and no change from last year.

MANUFACTURING PRODUCTION BY MAJOR GROUPS

[Relative numbers, monthly average 1923-1925 taken as 100, adjusted for seasonal variations]

which declined from the preceding month, and anthracite coal, which decreased from a year ago.

COMMODITY STOCKS

Stocks of commodities were generally higher than a year ago. The principal increases over last year occurring in leather, manufactured foodstuffs, and stone, clay, and glass products. Compared with last year, declines were registered in stocks of manufactured textiles, nonferrous metals, lumber, and paper.

SALES

The index of unfilled orders showed a gain over both the preceding month and April of last year. Wholesale trade was generally lower than in the preceding

Mail-order house sales were larger than a year ago, the increase in part due to further establishment of retail outlets. Sales by 10-cent chain stores and other chains were generally lower than in March, but recorded advances over last year. The principal gains in retail trade over a year ago occurred in sales by 10-cent chains, grocery chains, wearing apparel chains, and drug chains. Declines from last year were registered in sales by candy and shoe chains.

For the first four months of the year sales by department stores showed a gain of 3 per cent over the corresponding period of 1928, mail-order houses a gain of 29 per cent, chain 10-cent stores an increase of 7 per cent, and chain groceries a gain of 14 per cent over the same period a year earlier.

PRICES

The general index of farm prices showed a decline from both the preceding month and April of last year. The general index of wholesale prices showed a decline from the previous month and no change from last year. As compared with the preceding month, declines were registered in prices for farm products, textiles, building materials, chemicals, and certain miscellaneous items, while no change was recorded in prices for foods, hides and leather, fuel and lighting, metals, and house furnishings. As compared with last year, gains in prices for metals and building materials were just sufficient to offset declines in farm

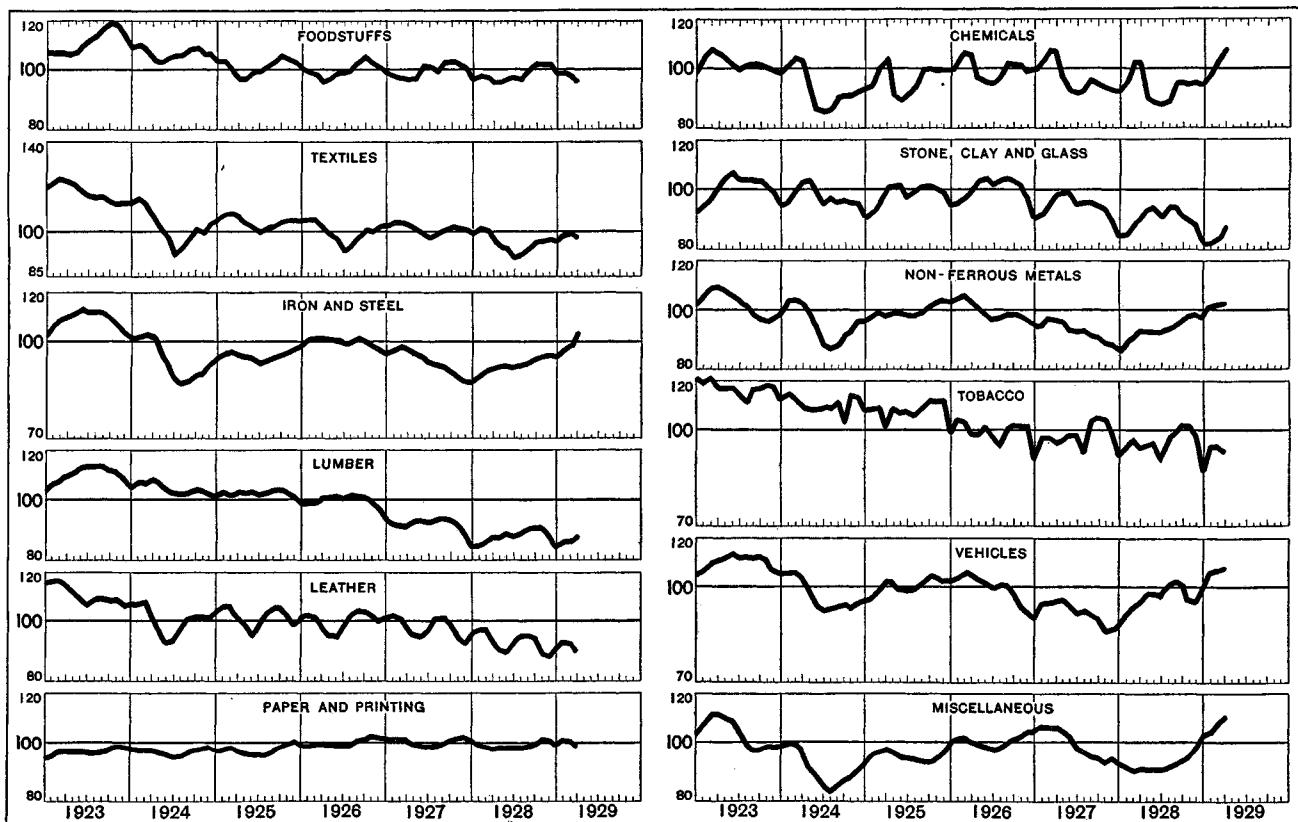

in the aforementioned items. Compared with a year ago, costs for food showed little change while costs for shelter, clothing, light, and sundries were lower.

EMPLOYMENT

Factory employment in April showed no change from the preceding month, but was almost 7 per cent higher than a year ago, the index reaching a point higher than at any time in about two years. As compared with the preceding month, increases were registered in the number of factory employees in iron and steel, lumber, chemicals, stone, clay and glass, non-ferrous metals, and vehicle factories. Contrasted with a year ago, gains were registered in all industrial

FACTORY EMPLOYMENT, BY GROUPS

[1926 monthly average=100. April, 1929, is latest month plotted]

products, foods, hides and leather, textiles, chemicals, and house furnishings.

Classified by condition of manufacture, the wholesale price index showed declines for semimanufactures from both the preceding month and April of last year; finished products showed no change from the previous month and a gain over last year; raw materials showed declines from both periods, while prices for nonagricultural commodities showed no change from either period.

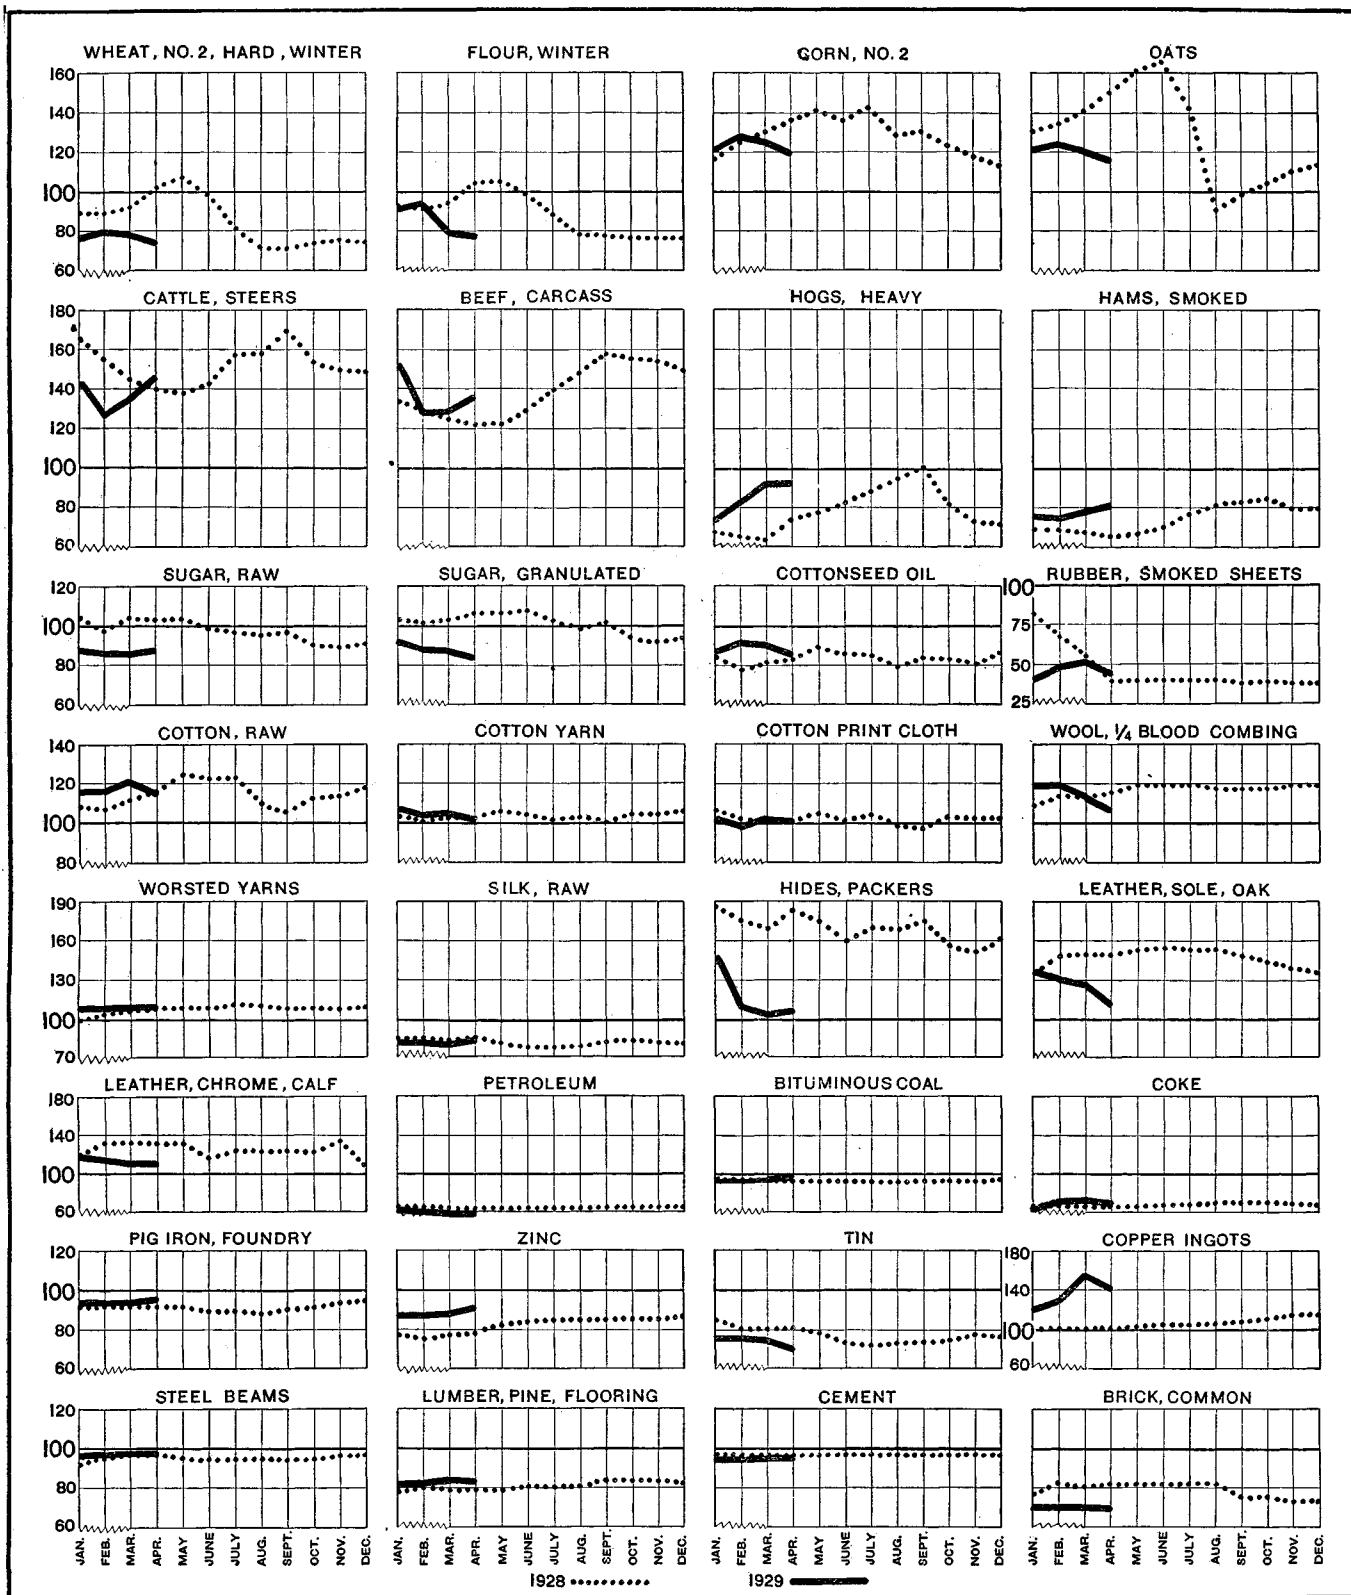

The cost of living index declined from both the preceding month and April of last year. The decline from March in the general index was occasioned by lower costs of food and fuel and light, higher prices for shelter and clothing being insufficient to offset declines

groups except leather, stone, clay, and glass, and tobacco, which declined.

Factory pay-roll payments in April showed a gain of 1 per cent over the preceding month and 12 per cent over a year ago. As compared with March, higher wage payments were made in iron and steel, lumber, chemicals, stone, clay, and glass, tobacco, vehicle, and certain miscellaneous industries, while declines were registered in food products, textiles, leather, paper, and printing. Contrasted with last year, gains were registered in all industrial groups except stone, clay, and glass, which declined. The principal gains in wage payments over last year occurred in nonferrous metals, vehicles, iron and steel, and certain miscellaneous industries, including rubber.

WHOLESALE PRICES FOR SPECIFIED COMMODITIES

[Relative numbers, 1926 monthly average taken as 100. April, 1929, is latest month plotted. Data from which these charts are drawn are given on the opposite page]

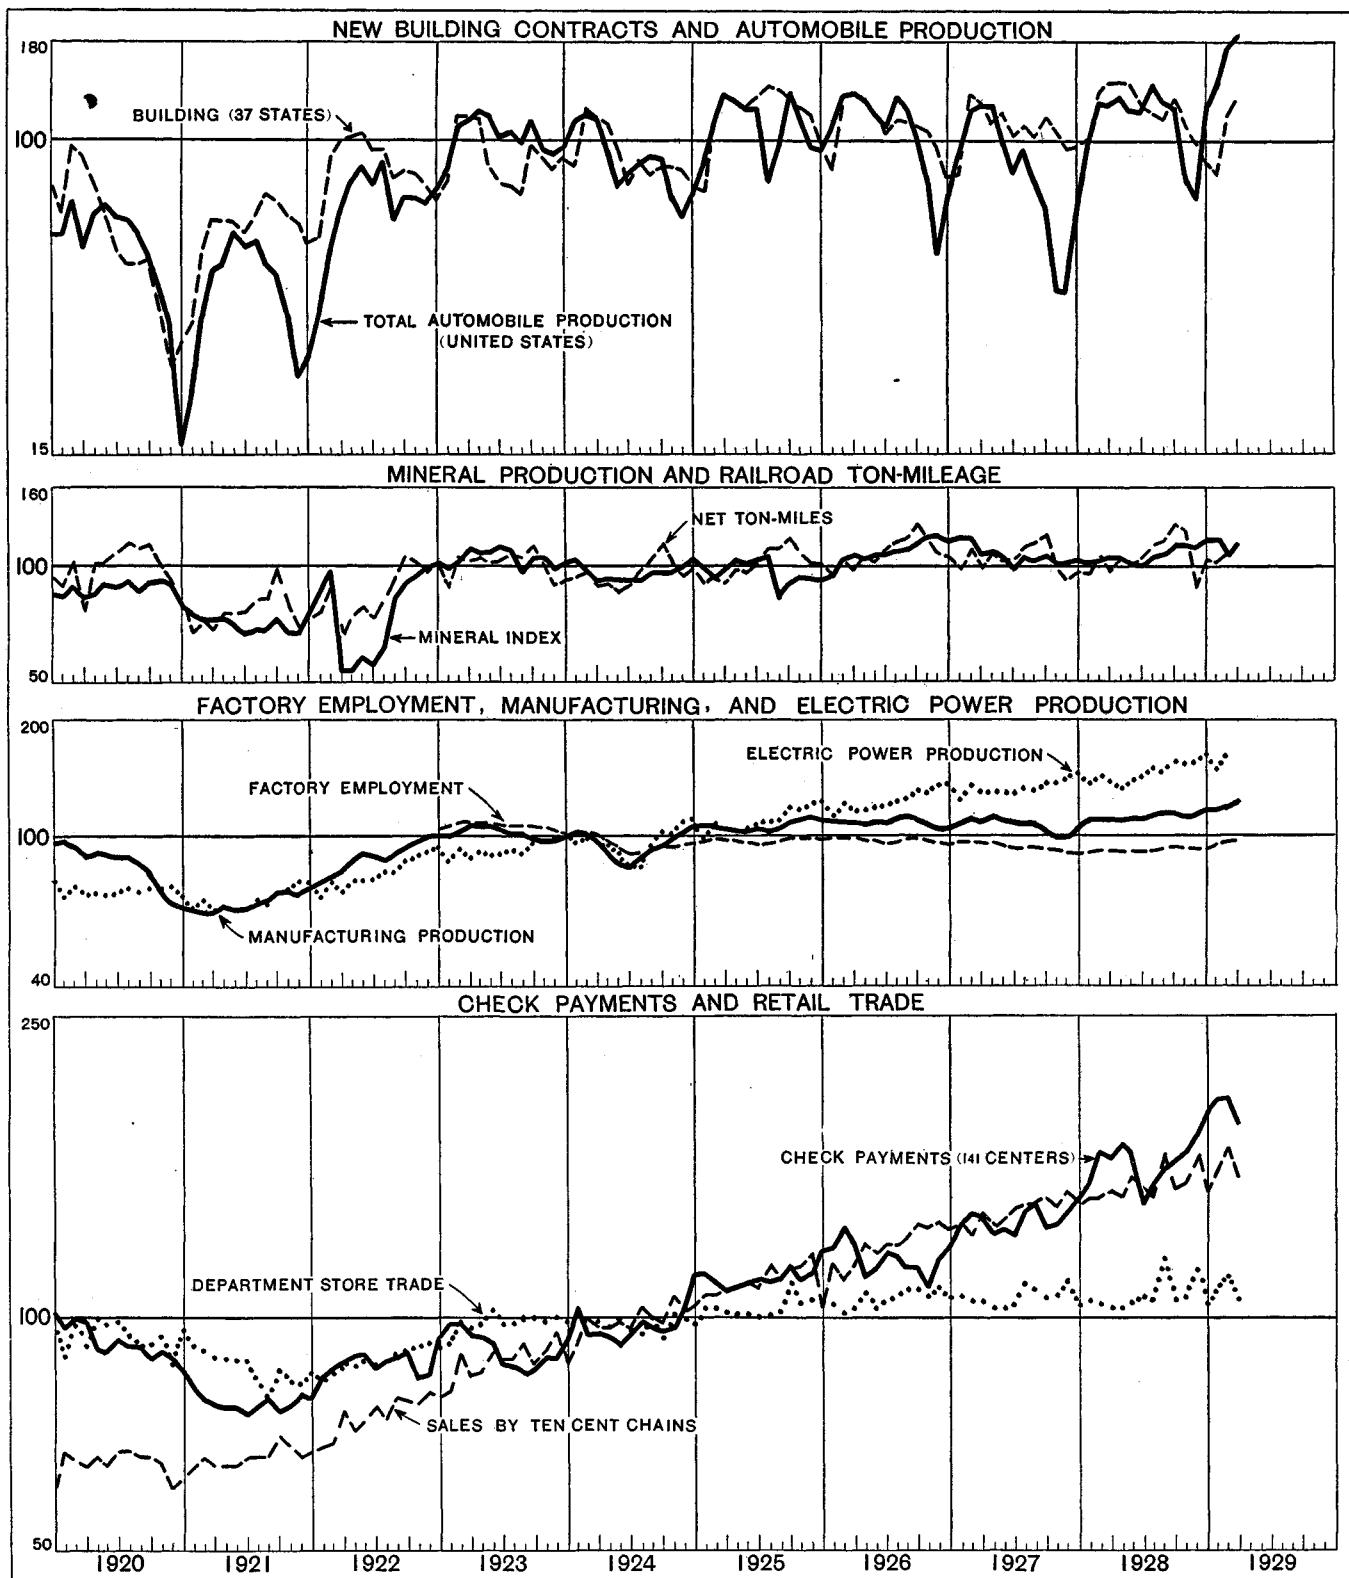

WHOLESALE PRICES FOR SPECIFIED COMMODITIES

NOTE.—Prices to producer on farm products and market price of wool are from U. S. Department of Agriculture, Bureau of Agricultural Economics, nonferrous metals from the Engineering and Mining Journal-Press, except tin, which is from the American Metal Market. All other prices are from U. S. Department of Labor, Bureau of Labor Statistics. So far as possible all quotations represent prices to producer or at mill.

MEASURES OF INDUSTRIAL AND COMMERCIAL ACTIVITY

[Relative numbers, monthly average 1923-1925 taken as 100]

REVIEW BY PRINCIPAL BRANCHES OF INDUSTRY AND COMMERCE

TEXTILES

Receipts of wool at Boston were considerably lower in April than in either the previous month or the same period of last year. Wool imports, on the other hand, showed a large gain over a year ago. Consumption of wool by textile mills was greater than in either the preceding month or April, 1928. Woolen machinery was generally more active than in either period.

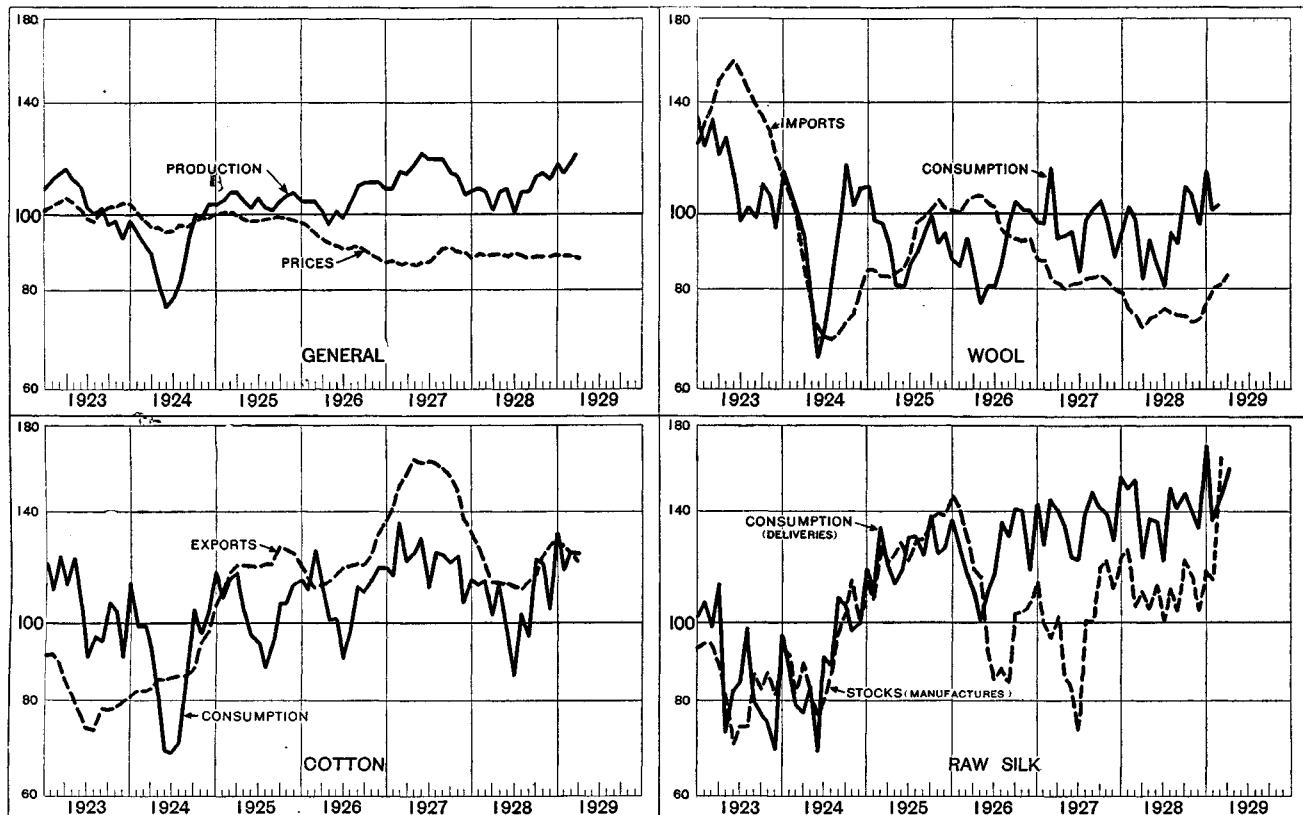

Cotton receipts were substantially lower than in April of last year. Exports of raw cotton showed declines from both the preceding month and the same month a year ago. Exports of cotton during the first four months of the year were fractionally larger, however, than in the same period of 1928. Consumption

was substantially greater than a year ago. Cotton cloth exports also showed a gain over last year.

Imports of raw silk were lower in April than in either the preceding month or April a year ago. For the first four months of the year silk imports, however, showed a gain of 6 per cent over last year. Deliveries of raw silk to consumers showed gains over both the preceding month and the same month a year ago, while the total for the first four months showed an advance of 6 per cent over last year. Warehouse stocks of silk at the end of April were 10 per cent greater than a year ago. Silk machinery was generally more active in April than in either the preceding month or April a year ago. Prices of raw silk

THE TEXTILE INDUSTRIES

[Relative numbers, monthly average 1923-1925, taken as 100. April, 1929, is latest month plotted. Curves covering imports of wool and exports of cotton are plotted from 12 months' moving monthly averages plotted on the end month]

of cotton showed a fractional decline from the preceding month, but was 20 per cent greater than a year ago. Stocks of cotton held by domestic mills and in public storage at the end of April were 7 per cent lower than a year ago. Prices for raw cotton averaged lower than in either the preceding month or April of last year.

Cotton machinery was considerably more active than a year ago. Production of cotton textiles showed a decline from both the preceding month and April of last year. For the first four months of the year cotton textile output was 2 per cent lower than in the same period of a year ago. The output of fine cotton goods

averaged higher than in the preceding month but were almost 5 per cent lower than last year. Prices for silk goods averaged lower than in either period.

Rayon imports were smaller than in March, but twice as large as a year ago. Hosiery production in March was greater than in February, but smaller than a year ago. Stocks of hosiery in manufacturers' hands at the end of March were larger than at the end of the preceding month, but showed a decline from last year.

Textiles spread with pyroxylin showed a decline from the preceding month, but a decided gain over last year.

METALS

The consumption of iron ore in April was smaller than in March, but 13 per cent larger than a year ago. Pig-iron production also showed a decline from the preceding month and a substantial gain over last year. For the first four months of the year the output of pig iron was 15 per cent greater than in the same period of last year. Wholesale prices for iron averaged higher than in either the previous month or a year ago.

The output of steel ingots declined from the preceding month, but was 15 per cent larger than a year ago. The production of steel for the first four months of the year showed a gain of almost 12 per cent over the same period of last year. Unfilled steel orders at the end of

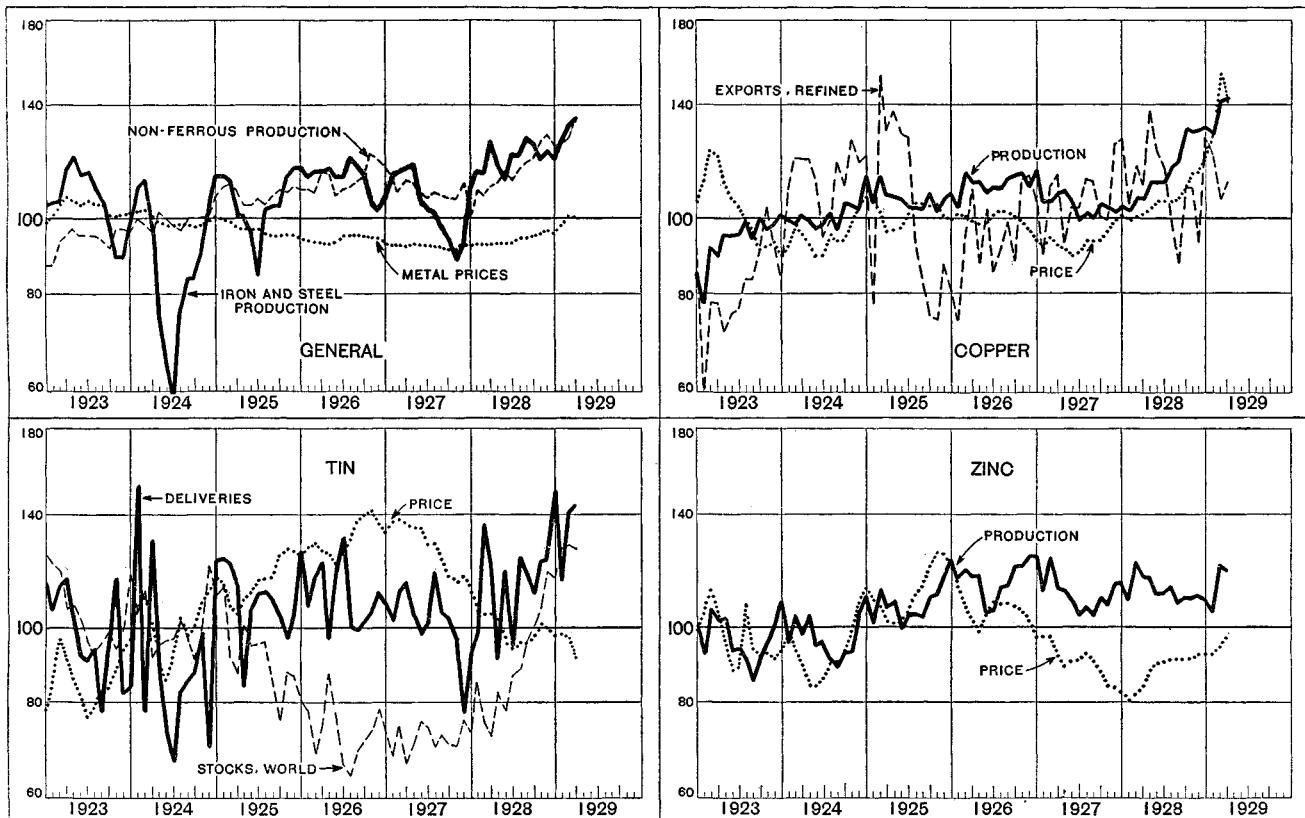

sanitary ware shipments were lower than in the same period of last year.

New orders for machine tools were somewhat smaller than in the preceding month, but showed a considerable gain over a year ago. New orders for electric hoists showed similar comparisons. Sales of mechanical stokers were substantially greater than in either the preceding month or in April, 1928.

The output of copper was greater than in either the preceding month or April of last year. Copper production during the first four months of the year was about 30 per cent larger than in the same period of 1928. Exports of refined copper during this period showed a gain of approximately 2 per cent. Stocks of

THE METAL INDUSTRIES

[Relative numbers, monthly average 1923-1925, taken as 100. April, 1929, is latest month plotted]

April were larger than at the end of either the previous month or April a year ago. Wholesale prices for steel and steel products averaged higher than in either the preceding month or the same period a year ago.

New orders for fabricated structural steel showed a decline from the previous month, but were 44 per cent larger than a year ago. Shipments of structural steel during the first four months of the year showed a gain of 22 per cent over the same period of last year. New orders for steel boilers showed gains over both the preceding month and April a year ago.

Shipments of enameled sanitary ware showed gains over the preceding month and declines from a year ago. For the first four months of the year enameled

blister copper in North and South America at the end of April were 16 per cent larger than a year ago. The wholesale price of copper averaged lower than in March, but was 39 per cent higher than a year ago.

Deliveries of tin to consuming establishments were greater than in either the previous month or April of last year, while indicated consumption for the first four months of the year showed a gain of 23 per cent over the same period a year ago. Wholesale prices for tin averaged lower than in either the preceding month or the corresponding period a year earlier.

Zinc production showed a decline from March and a gain over a year ago. Zinc prices averaged higher than in either period.

FUELS

The output of bituminous coal in April was smaller than in March, but 15 per cent greater than a year ago. For the first four months of the year production was 8 per cent larger than in the same period of last year. Prices for bituminous averaged lower than in either the previous month or April a year ago.

Anthracite production showed a gain over the previous month, but a decline from last year. For the first four months in the year the output of anthracite coal was 3 per cent greater than a year ago. Prices for anthracite averaged lower than for either the previous month or April of last year.

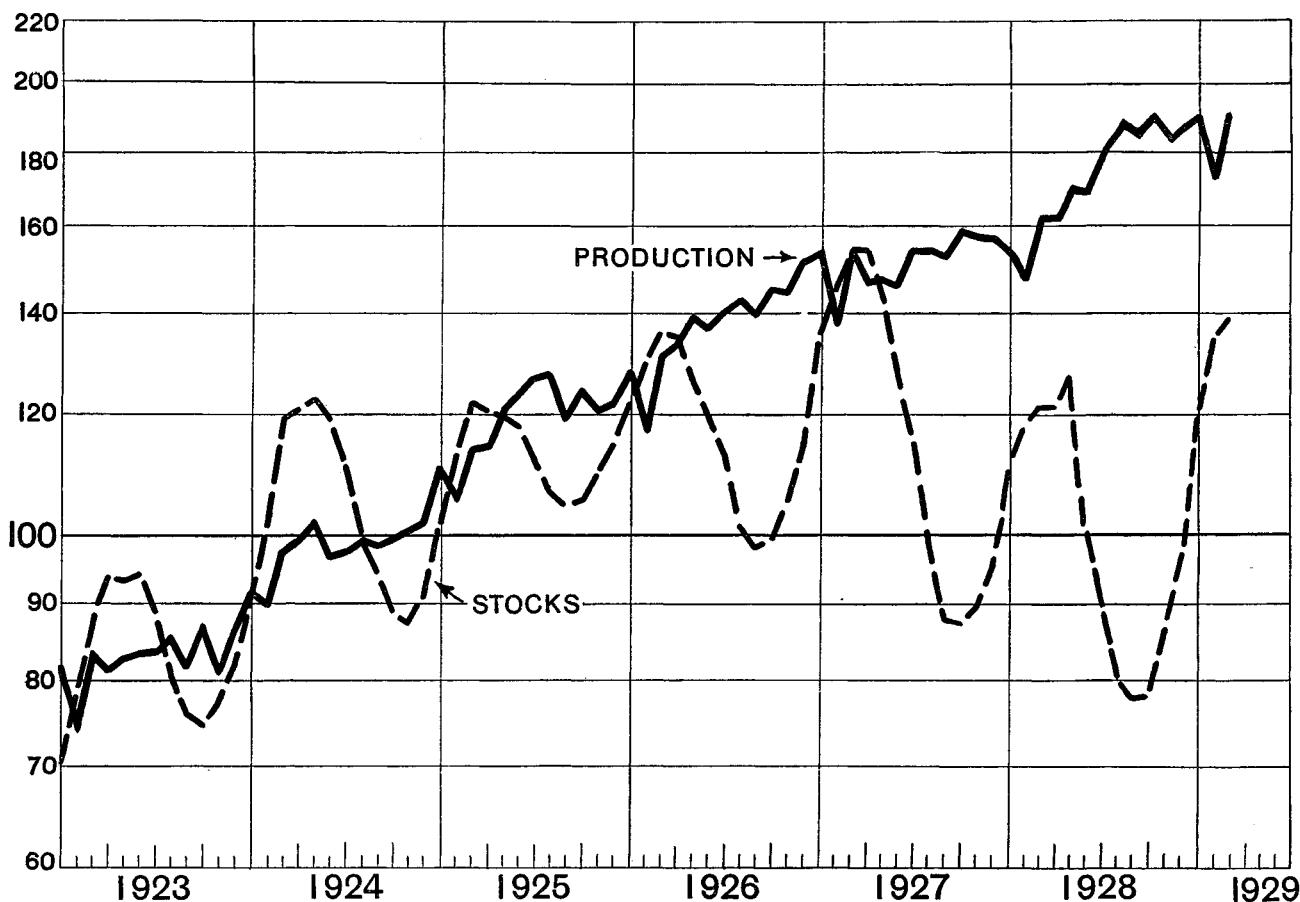

Imports of tires was considerably greater during the first four months than during the same period of 1928.

HIDES AND LEATHER

Imports of hides and skins showed a substantial gain over the preceding month, but were lower than a year ago; for the first four months of the year importation of all hides and skins showed a decline of 12 per cent from the same period of last year. Stocks of cattle hides at the end of March were lower than at the end of February, but larger than at the end of March, 1928. Prices for cattle hides and calfskins averaged higher than in March, but were lower than

PRODUCTION AND STOCKS OF GASOLINE

[Relative numbers, monthly average 1923-1925 taken as 100. March, 1929, is latest month plotted]

The output of crude petroleum showed a gain over a year ago, but was lower than in March. Production of gasoline was larger than in either period.

AUTOMOBILES AND RUBBER

The production of automobiles was larger in April than in any other month on record. For the first four months of the year the output of passenger cars and trucks showed a gain of 50 per cent over the same period of last year. Canadian production of automobiles during the first four months was more than twice as large as a year ago. Exports of automobiles from the United States and Canada likewise showed a substantial gain over a year ago. Production of pneu-

a year ago. Prices for sole leather averaged lower than in either the preceding month or April of last year.

PAPER AND PULP

Production of newsprint paper in the United States and Canada showed gains over both prior periods. Domestic production for the first four months of the year, however, showed a decline from the same period of last year, while Canadian production showed a gain of about 10 per cent. Imports of newsprint into the United States showed a decline from March and a gain over a year ago. For the first four months of the year newsprint imports were 5 per cent greater than in the same period in 1928.

BUILDING AND CONSTRUCTION

Construction costs showed only slight gains from both the preceding month and the corresponding period of last year. New building awards during April showed a larger value than in the preceding month but were smaller than a year ago. For the first four months of the current year the value of new building awards showed a decline of 11 per cent from the corresponding period of last year, increases of 15 per cent and 19 per cent, respectively, in commercial and industrial construction being insufficient to offset declines of 27 per cent in residential construction and 17 per cent in awards for public and semipublic buildings. Fire losses in the United States and Canada

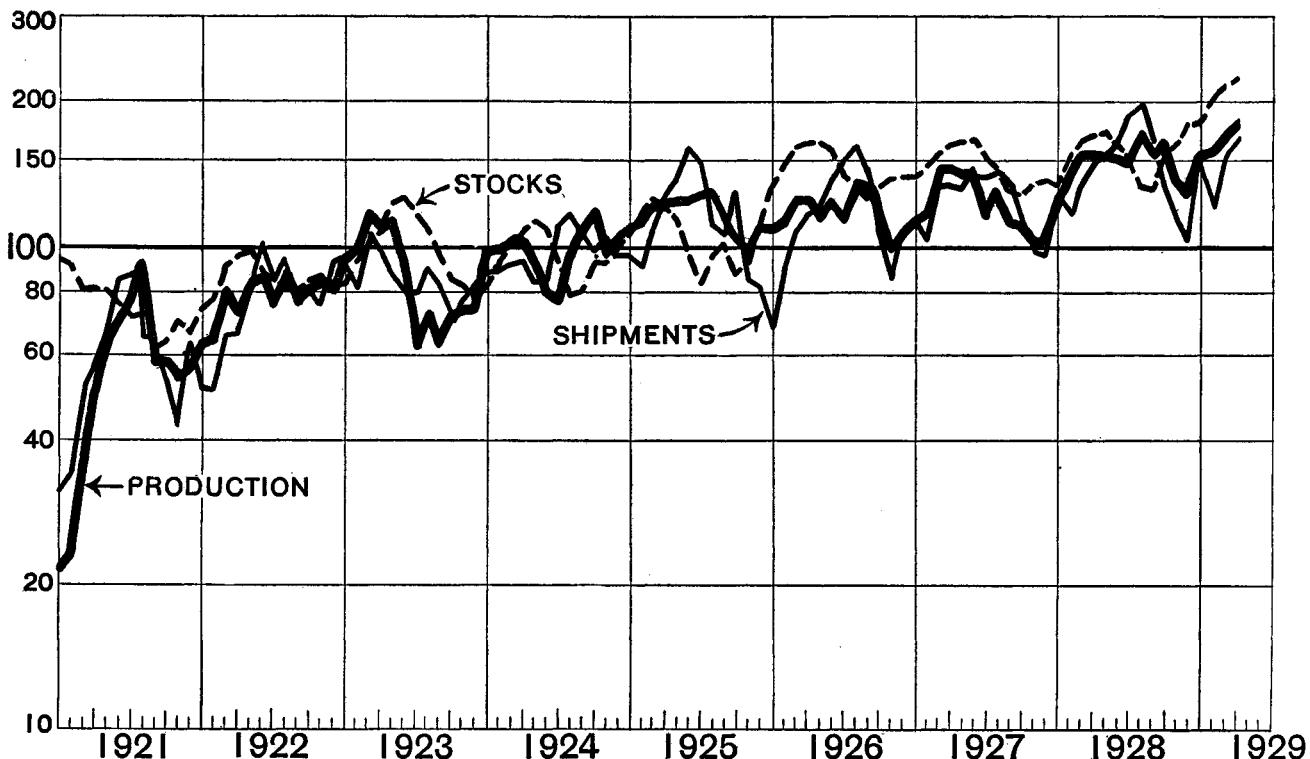

Production of flooring, both oak and maple, was lower in April than a year ago. For the first four months of the year oak and maple flooring output likewise showed declines from last year. Sales of lumber at rural retail yards in the Minneapolis and Kansas City Federal reserve districts were larger than in either the preceding month or April, 1928.

STONE, CLAY, AND GLASS PRODUCTS

The output of face brick showed gains over both the previous month and the same period of last year, while for the four months ended April 30 face-brick production showed a gain of about 30 per cent over a year ago. New orders for porcelain plumbing fixtures

PRODUCTION, SHIPMENTS, AND STOCKS OF PNEUMATIC TIRES

[Relative numbers, monthly average 1923-1925, taken as 100. April, 1929, is latest month plotted]

showed declines from both the preceding month and April, 1928. For the current year thus far fire losses showed a decline of 18 per cent from the corresponding four-month period of 1928.

LUMBER

Production of Southern pine lumber was greater than in March, but smaller than a year ago, while for the first four months pine lumber output showed a decline of more than 7 per cent from the same period a year ago. Unfilled orders of Southern pine at the end of April were substantially lower than at the end of either the preceding month or April a year ago. Exports of Southern pine showed gains in April over both the preceding month and April a year ago. Other types of lumber showed generally lower output than in April of last year.

showed declines for both the previous month and April a year earlier. New orders for terra cotta were greater than in either period.

The output of Portland cement showed gains as compared with both the preceding month and the same period of 1928. For the year to date cement output was slightly lower than in the same period a year earlier. Stocks of cement at the mills at the end of April were about 9 per cent larger than a year ago. The wholesale price of cement averaged lower than in April of last year, but showed no change from the preceding month.

New awards for concrete pavements showed a decline from a year ago. For the first four months of the year contracts let for new concrete pavements were 24 per cent smaller than in the same period of last year.

FOODSTUFFS AND TOBACCO

The visible supply of wheat in the United States and Canada at the end of April was considerably greater than a year ago. Receipts of wheat at principal markets showed a decline from last year, while shipments showed a gain. Exports of wheat from the United States were substantially larger than in April of last year. Wheat prices averaged lower than in either the preceding month or the corresponding period of 1928.

The visible supply of corn was lower than a year ago, while oats showed a gain. Receipts and ship-

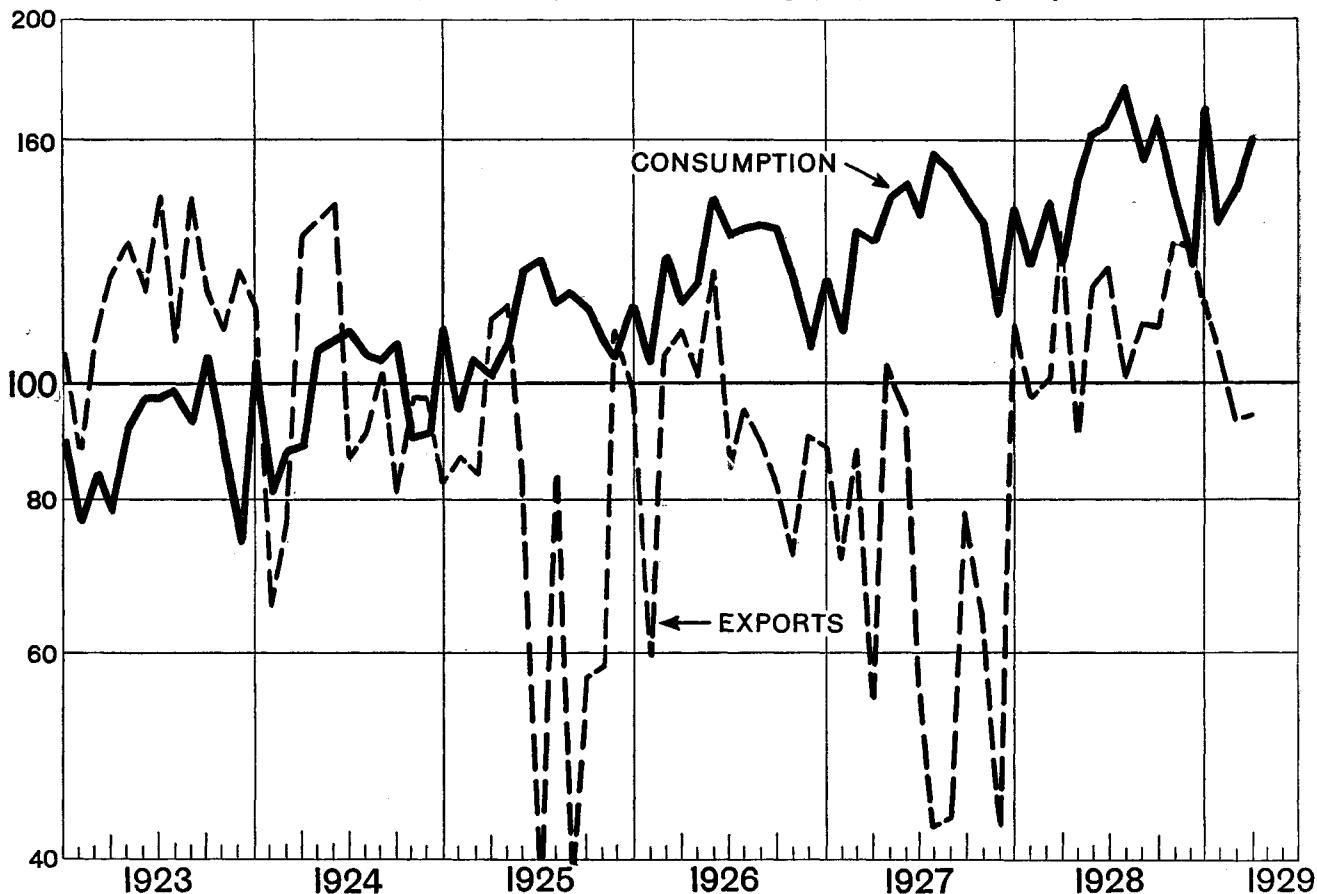

ments of corn showed declines from last year. Prices for corn and oats averaged lower than in either the previous month or April last year.

Receipts of cheese were 19 per cent smaller than a year ago, while storage holdings showed a gain of more than 30 per cent. Imports of sugar were 35 per cent heavier than in April, 1928. For the first four months of the year sugar imports showed a gain of 33 per cent over the same period of 1928. Stocks of sugar held at refineries were 9 per cent heavier than a year ago. Wholesale prices for sugar were generally lower than a year ago.

Imports of coffee were 6 per cent heavier than in April, 1928, but for the first four months of the year

CONSUMPTION AND EXPORTS OF CIGARETTES

[Relative numbers, monthly average 1923-1925 taken as 100. April, 1929, is latest month plotted]

ments of corn showed declines from last year. Prices for corn and oats averaged lower than in either the previous month or April last year.

Receipts and shipments of cattle at primary markets were greater than in April, 1928. Receipts of hogs at primary markets showed a gain over last year, while shipments declined. Storage holdings of pork products were 19 per cent lower than a year ago. Prices for pork averaged higher than in either the preceding month or April of last year. Receipts of poultry were larger than a year ago, while storage holdings showed a decline.

Butter receipts were 9 per cent heavier than April of last year, while storage holdings showed a gain of

the importation showed a decline of 2 per cent from the same period a year earlier. Prices for coffee were generally lower than in March but averaged higher than a year ago. Tea imports showed a gain of 26 per cent over April of last year, with the total for the first four months showing an increase of 6 per cent of the same period of 1928. Tea prices showed no change from March but were higher than in April, 1928.

The consumption of cigarettes showed a gain of 28 per cent over April of last year. Cigar consumption showed a gain of 20 per cent over last year. For the first four months of the year cigarette consumption was 15 per cent and cigar consumption 5 per cent larger than in the same period a year ago.

TRANSPORTATION

Freight-car loadings showed a gain of almost 7 per cent over April, 1928. For the first four months of the year loadings were 4 per cent heavier than in the same period of last year. Clearances of vessels engaged in foreign trade showed a gain of 10 per cent for the first four months as compared with the same period of 1928. River and canal traffic was likewise considerably heavier than a year ago. Unfilled orders for railroad locomotives at the end of April were considerably larger than a year ago. Unfilled orders for freight cars were also greater than last year.

DISTRIBUTION

Sales by mail-order houses showed a substantial gain over April of last year. For the first four months of the year mail-order business of the two principal houses was 29 per cent larger than a year ago. The volume

BANKING AND FINANCE

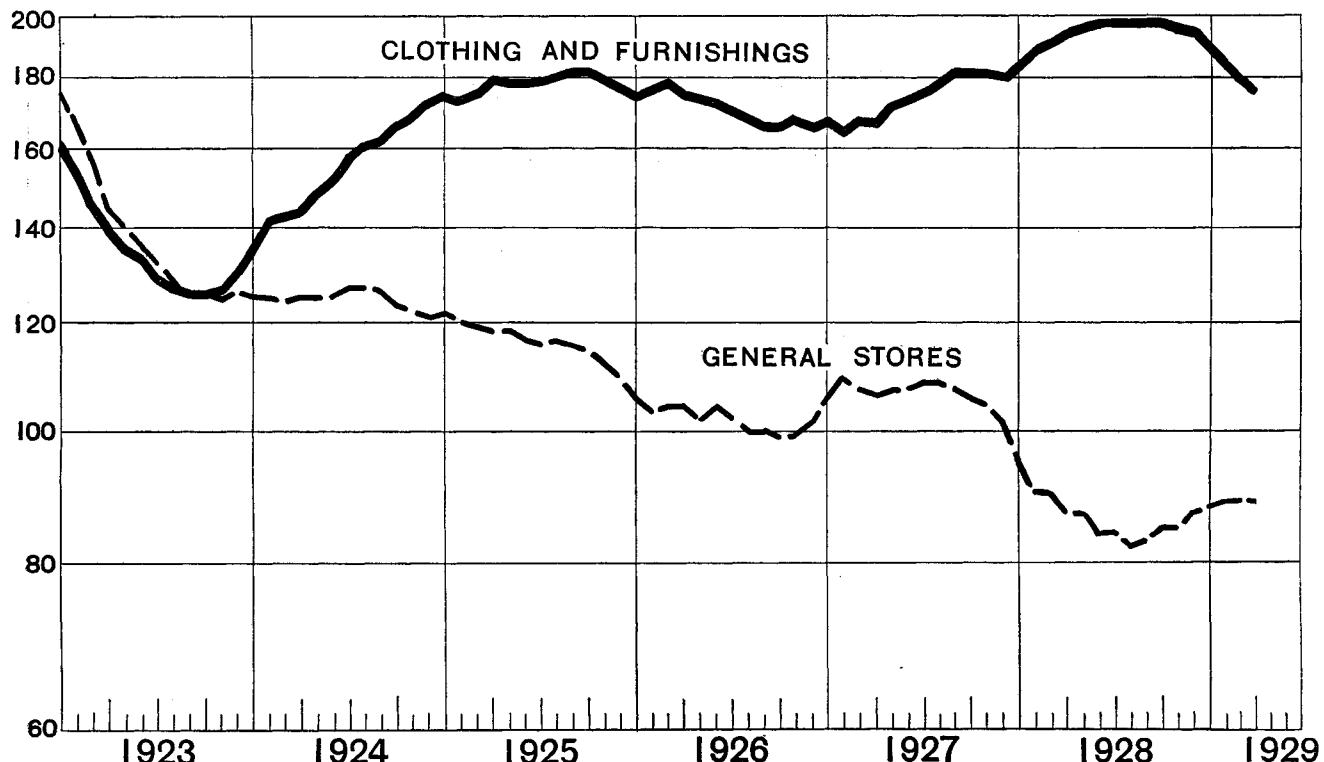

Bank loans and discounts at the end of April were lower than at the end of March, but showed a gain of 3 per cent over a year ago. The Federal reserve ratio continued to show gains as compared to both prior periods. Interest rates were generally higher than in either the previous month or April a year ago. Check payments, both in and out of New York City, were lower than in March, but higher than a year ago.

Dividend and interest payments showed a gain of 8 per cent over a year ago, while for the first four months of the year a gain of 10 per cent was registered. Prices for stocks showed only slight change from the preceding month, but were higher than a year ago. Bond prices were generally lower than in either the preceding month or April of last year.

New sales of life insurance showed a seasonal decline from March, but were 9 per cent heavier than

BUSINESS FAILURES AMONG MERCHANTS

[Actual number of failures, plotted as 12 months' moving monthly averages on the end month]

of business transacted by chain 10-cent stores was 5 per cent heavier than in April a year ago, while for the first four months the gain for the four principal systems amounted to 7 per cent. Magazine advertising showed a gain over both the preceding month and the corresponding month of last year. Newspaper advertising during the first four months was 4 per cent heavier than in the same period of 1928. Postal receipts in the principal cities showed a gain over a year ago.

a year ago. The value of new estates created by life insurance written during the first four months of the current year showed a gain of 8 per cent over the same period of last year.

GOLD, SILVER, AND FOREIGN EXCHANGE

Domestic receipts of gold at the mint during the first four months were 11 per cent smaller than a year ago. Silver production in the United States during the same period showed a gain of 6 per cent.

INDEXES OF BUSINESS

The index numbers presented in this table are designed to show the trend in production, prices, trade, etc., by commodities or groups. They consist in general of weighted combinations of series of individual relative numbers; often the individual relative numbers are also given. The function of index and relative numbers is explained on the inside front cover. All of the index numbers, except where noted, are based on the average of the years 1923 to 1925, while maxima and minima are given only since 1923, thus eliminating the abnormal period prior to 1923. Complete descriptions and figures for earlier years may be found in the following issues of the Survey (later data being available in the latest semiannual issues): Production, in the July, 1928, issue (No. 83), pages 18 to 22; stocks in the August, 1928, issue (No. 84), pages 20 to 22; new orders in the September, 1928, issue (No. 85), page 19; unfilled orders in the January, 1928, issue (No. 77), pages 22 and 23; wholesale trade in the January, 1928, issue (No. 77), page 21; mail-order and chain stores in the May, 1928, issue (No. 81), pages 20 and 21; department stores in the April, 1928, issue (No. 80), pages 20 and 21; employment, based on 1923 as 100, in the August, 1928, issue (No. 84), page 108; farm prices, in the August, 1928, issue (No. 84), page 27; wholesale prices (Department of Labor), in the November, 1927, issue (No. 75), page 24, and the June, 1928, issue (No. 82), page 23; wholesale prices, commercial, in the August, 1928, issue (No. 84), page 26; cost of living in the August, 1928, issue (No. 84), page 27, and the June, 1926, issue (No. 58), page 24.

¹ Compiled by the Denny Publishing Co. and published in National Advertising Records. Data on magazine advertising represent the grand total cost of all advertising for all classes in national magazines. Data on radio broadcasting include only the National Broadcasting System and Columbia Broadcasting System and cover charges for use of facilities only, talent not being included.

² Compiled by U. S. Department of Commerce, Bureau of the Census, from reports of 850 identical establishments. Details by materials are given in press releases.

NEW PAID-FOR LIFE INSURANCE

Compiled by the Association of Life Insurance Presidents. Data represent new paid-for business, exclusive of revivals, increases, and dividend additions of 44 member companies, having 82 per cent of the total life insurance in force in all United States legal reserve life insurance companies. These tables revise all data previously shown on this subject in the Survey of Current Business.

TREND OF BUSINESS MOVEMENTS

The following table contains a summary of the monthly figures, designed to show the trend in important industrial and commercial movements. These data represent continuations of the figures presented in the latest semiannual number (February, 1929), in which monthly figures for 1927 and 1928 may be found, together with explanations as to the sources and exact extent of the figures quoted. The figures given below should always be read in connection with those explanations. Data on stocks, unfilled orders, etc., are given as of the end of the month referred to. For explanations of relative numbers, including base periods, see introduction on inside front cover.

<i>The cumulatives shown are through April, except where otherwise noted. Earlier data for items shown here may be found on pages 27 to 138 of the February, 1929, "Survey"</i>	1928		1929			1928		PER CENT INCREASE (+) OR DECREASE (-)		CUMULATIVE TOTAL FROM JAN. 1 THROUGH APR. 30		Per ct. increase (+) or decrease (-) cumulative 1929 from 1928

PUBLICATIONS OF THE DEPARTMENT OF COMMERCE

Recent publications of the Department of Commerce having the most direct interest to readers of the **SURVEY OF CURRENT BUSINESS** are listed below. A complete list may be obtained by addressing the Division of Publications, Department of Commerce, at Washington. Copies of the publications may be purchased from the Superintendent of Documents, Government Printing Office, Washington, at the prices stated. If no price is mentioned, the publication is distributed free.

OFFICE OF THE SECRETARY

Recent Economic Changes in United States: Report of Committee on Recent Economic Changes of President's Conference on Unemployment. Elimination of Waste Series; iv+32 pages. Report on a survey of the changes which have taken place in economic conditions in the United States since the World War. An appendix contains an outline of the report on the various phases of our present day economic life made by the National Bureau of Economic Research to the Committee on Recent Economic Changes. Price, 5¢.

Radio Service Bulletin, April, 1929. 23 pages. Issued monthly by the Radio Division of the Department of Commerce. Contains list of radio stations and references to current radio literature. Single copies, 5¢; annual subscription, 25¢.

BUREAU OF THE CENSUS

[For information concerning the plan of publication and distribution of Census reports, address the Director of the Census.]

Animal and Vegetable Fats and Oils, Calendar Years 1927 and 1928.—Statistics relate to factory production, factory consumption, and factory and warehouse stocks, and imports and exports. Paper, 18 pages, price 5¢.

Financial Statistics of States, 1927. Shows financial transactions of the 48 States for the fiscal year 1927 and the financial condition of each State at the close of fiscal year; also financial data relating to Hawaii. Paper, 125 pages, price 20¢.

BUREAU OF FOREIGN AND DOMESTIC COMMERCE

[The publications of this bureau may also be purchased from the bureau or its district offices.]

Monthly Summary of Foreign Commerce of United States, March, 1929. Parts I and II. Part I contains statistics of exports of domestic merchandise, and imports by articles for March, 1928 and 1929, and for three months ended March, 1928 and 1929. Part II contains summaries of export and import trade; monthly average import and export prices; and statistics of trade with Alaska, Hawaii, and Porto Rico. Single copies, Part I, 10¢; Part II, 5¢. Annual subscription, \$1.25.

Retail Grocers' Problems. Distribution Cost Studies No. 5; iv+25 pages, 6 illustrations. Study of the problems of the retail grocer, such as the effect of changes in neighborhood, competition with the chain store, difficulties in connection with extension of credit to customers, and delivery costs. Price, 10¢.

Canadian Loan Corporations. Trade Information Bulletin No. 616; ii+32 pages. This bulletin relates to the development of loan corporations in Ontario Province, showing the source of their funds and the purposes of their operations. Price, 10¢.

European Motion-picture Industry in 1928. Trade Information Bulletin No. 617; ii+74 pages, 2 charts. Description of the motion-picture industry in various European countries, with information on the regulations governing the exhibition of films and the number of theaters in operation and their seating capacity. An appendix gives the text of laws of Great Britain, Austria, Italy, and France regarding motion pictures. Price, 10¢.

British Chemical Trade in 1928. Trade Information Bulletin No. 621; ii+40 pages. Discusses the chemicals production and trade of Great Britain during 1928. Price, 10¢.

International Trade in Citrus Fruits. Trade Promotion Series No. 77; ii+46 pages, 6 illustrations, 12 charts. Discussion of the principal countries producing citrus fruits, the world trade in these products, and the markets for United States fruit. Price, 10¢.

American Chemical Industry: Production and Foreign Trade in First Quarter of Twentieth Century. Trade Promotion Series No. 78; vi+114 pages, 1 illustration, 15 charts. The different products of the chemical industry are discussed by groups and the trade of the United States in these products is analyzed. Price, 20¢.

BUREAU OF STANDARDS

Bureau of Standards Journal of Research May, 1929. Pages 837-999, illustrations, plates, charts. This journal contains the papers formerly issued as the Technologic and Scientific Papers series, which series have been discontinued. The articles in the journal are known as the Research Papers series and are issued separately after publication in the journal. Single copies, 25¢; annual subscription, \$2.75.

Technical News Bulletin, May, 1929. Pages 37-48. This monthly publication contains a brief account of the laboratory activities of the bureau and gives a list of pamphlets issued and magazine articles published during the preceding month. Annual subscription, 25¢.

United States Government Master Specifications. These specifications for the purchase of materials for the use of Government departments are promulgated by the Federal Specifications Board and published by the Bureau of Standards. Those listed below by number may be obtained at 5¢ each:

- No. 39c, Tubing, Rubber. ii+3 pages. Supersedes Federal Specifications Board Specification No. 39b and Bureau of Standards Circular No. 305.
- No. 48c, Hose, Water and Wash Deck. ii+3 pages. Supersedes Federal Specifications Board Specification No. 48b and Bureau of Standards Circular No. 291.
- No. 50b, Hose, Suction, Water (Smooth Bore). ii+4 pages. Supersedes Federal Specifications Board Specification No. 50a and Bureau of Standards Circular No. 292.
- No. 111b, Packings and Gaskets, Rubber (Molded, Sheet, and Strip). ii+4 pages. Supersedes Federal Specifications Board Specification No. 111a and Bureau of Standards Circular No. 235.
- No. 427a, Wool Bunting. ii+2 pages. Supersedes Federal Specifications Board Specification No. 427 and Bureau of Standards Circular C35.
- No. 618, Lamps, Electric, Incandescent, Miniature, Tungsten Filament. ii+10 pages.

BUREAU OF MINES

Mineral Resources of United States, 1927. The reports on mineral resources are first issued in the form of bulletins of which the following have been released since the May announcement and may be obtained at the price indicated:

- Gold, Silver, Copper, Lead, and Zinc in New Mexico and Texas in 1927. (Pt. I, pp. 455-473.) Price, 10¢.
- Petroleum in 1927. (Pt. II, pp. 511-593.) Price, 15¢.
- Rare Metals: Cobalt, Molybdenum, Nickel, Tantalum, Titanium, Tungsten, Radium, Uranium, and Vanadium in 1927. (Pt. I, pp. 393-433.) Price, 10¢.
- Secondary Metals in 1927. (Pt. I, pp. 373-392.) Price, 5¢.

Falls of Roof in Bituminous Coal Mines, Influence of Seasons and Rate of Production, by J. W. Paul. Technical Paper 410; ii+40 pages, 25 charts. Discussion of the effect of changes in temperature on the roof of coal mines and the ratio of production to the number of accidents occurring in these mines, with recommendations for their prevention. Price, 10¢.

Coal-Dust Explosions in Mines, Causes, Effects, and Recommendations for Prevention. Technical Paper 448; ii+24 pages. Gives definitions of coal dust and discusses the causes of coal-dust explosions, the phenomena observed in these explosions, and the precautions which should be taken to prevent these disasters in coal mines. Price, 5¢.

Study of Crude Oil Produced in Salt Creek Field, Wyoming. Technical Paper 449; ii+27 pages, 5 illus. Price, 5¢.

BUREAU OF FISHERIES

Propagation and Distribution of Food Fishes, Fiscal Year, 1928. Document No. 1049. (Appendix VIII to Report of United States Commissioner of Fisheries for 1928, pp. 339-399, 4 illustrations.) Describes the activities of the different fish hatcheries in fish rescue work and in the distribution of young fish and eggs and the methods used in this work. An account is given of the cooperation of the Government with the States and private individuals in the propagation of fish. Price, 10¢.

COAST AND GEODETIC SURVEY

Current Tables, Atlantic Coast, North America, for Year 1930. Serial 430; 126 pages, 2 illustrations, 6 diagrams. There is an explanatory introduction with each set of tables. Price, 10¢.

LIGHTHOUSE SERVICE

Atlantic Coast of United States: Local Light List, Including Lights, Fog Signals, Buoys, and Daymarks, Cape May to Cape Lookout, Including Delaware and Chesapeake Bays and North Carolina Sounds, Fourth and Fifth Lighthouse Districts, 1929 (corrected to Dec. 15, 1928). 415 pages. This list describes all aids to navigation maintained by the United States in the districts stated. Price, 30¢.

Atlantic Coast of United States: Local Light List, Including Lights, Fog Signals, Buoys, and Daymarks, New England Coast, Maine to Massachusetts, First and Second Lighthouse Districts, 1929 (corrected to Dec. 15, 1928). ii+182 pages. This list describes all aids to navigation maintained by the United States on the New England coast. Price, 30¢.

CHIEF FUNCTIONS OF THE DEPARTMENT OF COMMERCE

R. P. LAMONT, Secretary of Commerce

JULIUS KLEIN, Assistant Secretary of Commerce. EPHRAIM F. MORGAN, Solicitor

AERONAUTICS BRANCH

WILLIAM P. McCACKEN, JR., Assistant Secretary of Commerce
for Aeronautics

Establishment of civil airways and maintenance of aids to air navigation; inspection and registration of aircraft and licensing of pilots; enforcement of air traffic rules; investigation of accidents; encouragement of municipal air ports; fostering of air commerce; scientific research in aeronautics; and dissemination of information relating to commercial aeronautics. (Some of these functions are performed by special divisions of the Lighthouse Service, the Bureau of Standards, and the Coast and Geodetic Survey.)

BUREAU OF THE CENSUS

WILLIAM M. STEUART, Director

Taking censuses of population, mines and quarries, water transportation, and religious bodies every 10 years; censuses of agriculture and electrical public utilities every 5 years; and a census of manufactures every 2 years.

Compilation of statistics of wealth, public debt and taxation, including financial statistics of local governments, every 10 years; annual compilation of financial statistics of State and municipal governments.

Compilation of statistics of marriage, divorce, births, deaths, and penal and other institutions annually, and of death rates in cities and automobile accidents weekly.

Compilation quarterly or monthly of statistics on cotton, wool, leather, and other industries; annually of forest products; and publication monthly of Survey of Current Business.

BUREAU OF FOREIGN AND DOMESTIC COMMERCE

, Director

The collection of timely information concerning world market conditions and openings for American products in foreign countries, through commercial attachés, trade commissioners, and consular officers, and its distribution through weekly Commerce Reports, bulletins, confidential circulars, the news and trade press, and district and cooperative offices in 65 cities.

The maintenance of commodity, technical, and regional divisions to afford special service to American exporters and manufacturers.

The compilation and distribution of lists of possible buyers and agents for American products in all parts of the world and publication of weekly lists of specific sales opportunities abroad.

The publicity of statistics on imports and exports.

The study of the processes of domestic trade and commerce.

BUREAU OF STANDARDS

GEORGE K. BURGESS, Director

Custody, development, and construction of standards of measurement, quality, performance, or practice; comparison of standards used by scientific or other institutions; determination of physical constants and properties of materials; researches and tests on materials and processes; and publication of scientific and technical bulletins reporting results of researches and fundamental technical data.

Preparation of specifications for Government purchases, through the Federal Specifications Board.

Collection and dissemination of information concerning building codes and the planning and construction of houses.

Establishment of simplified commercial practices through cooperation with business organizations in order to reduce the wastes resulting from excessive variety in commodities.

BUREAU OF MINES

SCOTT TURNER, Director

Technical investigations in the mining, preparation, and utilization of minerals, including the study of mine hazards and safety methods and of improved methods in the production and use of minerals.

Testing of Government fuels and management of the Government Fuel Yard at Washington.

Research on helium and operation of plants producing it. Studies in the economics and marketing of minerals and collection of statistics on mineral resources and mine accidents.

The dissemination of results of technical and economic researches in bulletins, technical papers, mineral resources series, miners' circulars, and miscellaneous publications.

BUREAU OF FISHERIES

HENRY O'MALLEY, Commissioner

The propagation and distribution of food fish and shellfish, in order to prevent the depletion of the fisheries; investigations to promote conservation of fishery resources; the development of commercial fisheries and agriculture; study of fishery methods, improvements in merchandising and collection of fishery statistics; administration of Alaska fisheries and fur seals; and the protection of sponges off the coast of Florida.

BUREAU OF LIGHTHOUSES

GEORGE R. PUTNAM, Commissioner

Maintenance of lighthouses and other aids to water navigation. Establishment and maintenance of aids to navigation along civil airways.

Publication of Light Lists, Buoy Lists, and Notices to Mariners, giving information regarding these aids to navigation.

COAST AND GEODETIC SURVEY

RAYMOND S. PATTON, Director

Survey of the coasts of the United States and publication of charts for the navigation of the adjacent waters, including Alaska, the Philippine Islands, Hawaii, Porto Rico, the Virgin Islands, and the Canal Zone; interior control surveys, magnetic surveys; tide and current observations; and seismological investigations.

Publication of results through charts, coast pilots, tide tables, current tables, and special publications.

BUREAU OF NAVIGATION

ARTHUR J. TYRER, Commissioner

Superintendence of commercial marine and merchant seamen. Supervision of registering, enrolling, licensing, numbering, etc., of vessels under the United States flag, and the annual publication of a list of such vessels.

Enforcement of the navigation and steamboat inspection laws, including imposition of fees, fines, tonnage taxes, etc.

STEAMBOAT INSPECTION SERVICE

DICKERSON N. HOOVER, Supervising Inspector General

The inspection of merchant vessels, including boilers, hulls, and life-saving equipment, licensing of officers of vessels, certification of able seamen and lifeboat men, and the investigation of violations of steamboat inspection laws.

UNITED STATES PATENT OFFICE

THOMAS E. ROBERTSON, Commissioner

The granting of patents and the registration of trade-marks, prints, and labels after technical examination and judicial proceedings.

Mainteance of library with public search room, containing copies of foreign and United States patents and trade-marks. Recording bills of sale, assignments, etc., relating to patents and trade-marks. Furnishing copies of records pertaining to patents.

Publication of the weekly Official Gazette, showing the patents and trade-marks issued.

RADIO DIVISION

W. D. TERRELL, Chief

Inspection of radio stations on ships; inspection of radio stations on shore, including broadcasting stations; licensing radio operators; assigning station call letters; enforcing the terms of the International Radiotelegraphic Convention; and examining and settling international radio accounts.
