SURVEY OF
CURRENT BUSINESS

JUNE, 1930

No. 106

ISSUED BY
BUREAU OF THE CENSUS

IMPORTANT NOTICE

In addition to figures given from Government sources, there are also incorporated for completeness of service figures from other sources generally accepted by the trades, the authority and responsibility for which are noted in the "Sources of Data" on pages 139-142 of the February, 1930, semiannual issue.

INTRODUCTION

The SURVEY OF CURRENT BUSINESS is designed to present each month a picture of the business situation by setting forth the principal facts regarding the various lines of trade and industry. The figures reported are very largely those already in existence. The chief function of the department is to bring together these data which, if available at all, are scattered in hundreds of different publications. A portion of these data are collected by Government departments, other figures are compiled by technical journals, and still others are reported by trade associations.

At semiannual intervals detailed tables are published giving, for each item, monthly figures for the past two years and yearly comparisons, where available, back to 1913; also blank lines sufficient for six months have been left at the bottom of each table, enabling those who care to do so to enter new figures as soon as they appear (see February, 1930 issue). In the intervening months the more important comparisons only are given in the table entitled "Trend of business movements."

WEEKLY SUPPLEMENT

Realizing that current statistics are highly perishable and that to be of use they must reach the business man at the earliest possible moment, the department has arranged to distribute supplements every week to subscribers in the United States. The supplements are usually mailed on Saturdays and give such information as has been received during the week ending on the preceding Tuesday. The monthly information contained in these bulletins is republished in the SURVEY, and the supplements also contain charts and tables of weekly data.

RELATIVE AND INDEX NUMBERS

To facilitate comparison between different important items and to chart series expressed in different units, relative numbers (often called "index numbers," a term referring more particularly to a special kind of number described below) have been calculated. The monthly average for 1923-1925 has usually been used as a base equal to 100.

The relative numbers are computed by allowing the monthly average for the base year or period to equal 100. If the movement for a current month is greater than the base, the relative number will be greater than 100, and vice versa. The difference between 100 and the relative number will give at once the per cent increase or decrease compared with the base period. Thus a relative number of 115 means an increase of 15 per cent over the base period, while a relative number of 80 means a decrease of 20 per cent from the base.

Relative numbers may also be used to calculate the approximate percentage increase or decrease in a movement from one period to the next. Thus, if a relative number at one month is 120 and for a later month it is 144 there has been an increase of 20 per cent.

When two or more series of relative numbers are combined by a system of weightings, the resulting series is denominated an index number. The index number, by combining many relative numbers is designed to show the trend of an entire group of

This issue presents practically complete data for the month of April and contains text covering the early weeks of May (page 1), for which the basic figures in table and chart form are presented regularly in the weekly supplements. As most data covering a particular month's business are not available until from 15 to 30 days after the close of the month, a complete picture of that month's operations can not be presented at an early date, but the weekly supplements give every week the latest data available.

industries or for the country as a whole, instead of for the single commodity or industry which the relative number covers. Comparisons with the base year or with other periods are made in the same manner as in the case of relative numbers.

RATIO CHARTS

In most instances the charts used in the SURVEY OF CURRENT BUSINESS are of the type termed "Ratio Charts" (logarithmic scale), notably the Business Indicator charts on page 2. These charts show the percentage increase and allow direct comparisons between the slope of one curve and that of any other curve regardless of its location on the diagram, that is, a 10 per cent increase in an item is given the same vertical movement whether its curve is near the bottom or near the top of the chart. The difference between this and the ordinary arithmetic form of chart can be made clear by an example. If a certain item having a relative number of 400 in one month increases 10 per cent in the following month, its relative number will be 440, and on an ordinary chart would be plotted 40 equidistant scale points higher than the preceding month. Another movement with a relative number of, say, 50 also increases 10 per cent, making its relative number 55. On the ordinary (arithmetic) scale this item would rise only 5 equidistant points, whereas the previous item rose 40 points, yet each showed the same percentage increase. The ratio charts avoid difficulty and give to each of the two movements exactly the same vertical rise, and hence the slopes of the two lines are directly comparable. The ratio charts compare percentage changes, while the arithmetic charts compare absolute changes.

RECORD BOOK

As an aid to readers in comparing present data with monthly statistics in previous years, the department is compiling a RECORD BOOK OF BUSINESS STATISTICS, in which data now carried in the SURVEY OF CURRENT BUSINESS are shown by months as far back as 1909, if available. Full descriptions of the figures and reports of how the data are used in actual practice by business firms are contained in the RECORD BOOK. The sections covering textiles, metals, and fuels, automobiles, and rubber have already been issued and may be obtained for 10 cents per copy from the Superintendent of Documents, Government Printing Office, Washington, D. C. (Do not send stamps.) Notices of other sections will be given in the SURVEY as they are issued.

METHODS OF USE

Methods of using and interpreting current business statistics have been collected by the department from many business concerns and are described in a booklet entitled "How to Use Current Business Statistics," together with methods of collecting statistics. This booklet may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 15 cents per copy. (Do not send stamps.)

This issue presents practically complete data for the month of April and contains text covering the early weeks of May (page 1), for which the basic figures in table and chart form are presented regularly in the weekly supplements. As most data covering a particular month's business are not available until from 15 to 30 days after the close of the month, a complete picture of that month's operations can not be presented at an early date, but the weekly supplements give every week the latest data available.

SURVEY OF CURRENT BUSINESS

PUBLISHED BY

UNITED STATES DEPARTMENT OF COMMERCE

Subscription price of the SURVEY OF CURRENT Business is \$1.50 a year; single copies (monthly), 10 cents, semiannual issue, 25 cents. Foreign subscriptions, \$2.25, single copies (monthly issues), including postage, 14 cents; semiannual issues, 36 cents. Subscription price of COMMERCE REPORTS is \$4 a year; with the SURVEY, \$5.50 a year. Make remittances only to Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft. Currency at sender's risk. Postage stamps or foreign money not accepted

PRELIMINARY SUMMARY FOR MAY

Business in May, as seen from figures covering check payments, for the first four weeks, was lower than the corresponding period of 1929. The distribution of commodities through primary channels as reflected by data on car loadings was also lower than in May a year ago.

Activity in steel plants, though showing slight change from April, was on a lower plane than in May, 1929. The production of bituminous coal, while showing a slight gain over April, was lower than for the corresponding period last year. Factory employment in Detroit, reflecting the automobile industry, showed an improvement over the previous month, but was substantially lower than a year ago. The output of crude petroleum was slightly larger than during the preceding month but lower than a year ago. The value of new building contracts awarded during May was larger than during the previous month but was 6 per cent less than during May, 1929.

The general index of wholesale prices was lower than for either the previous month or for May, 1929.

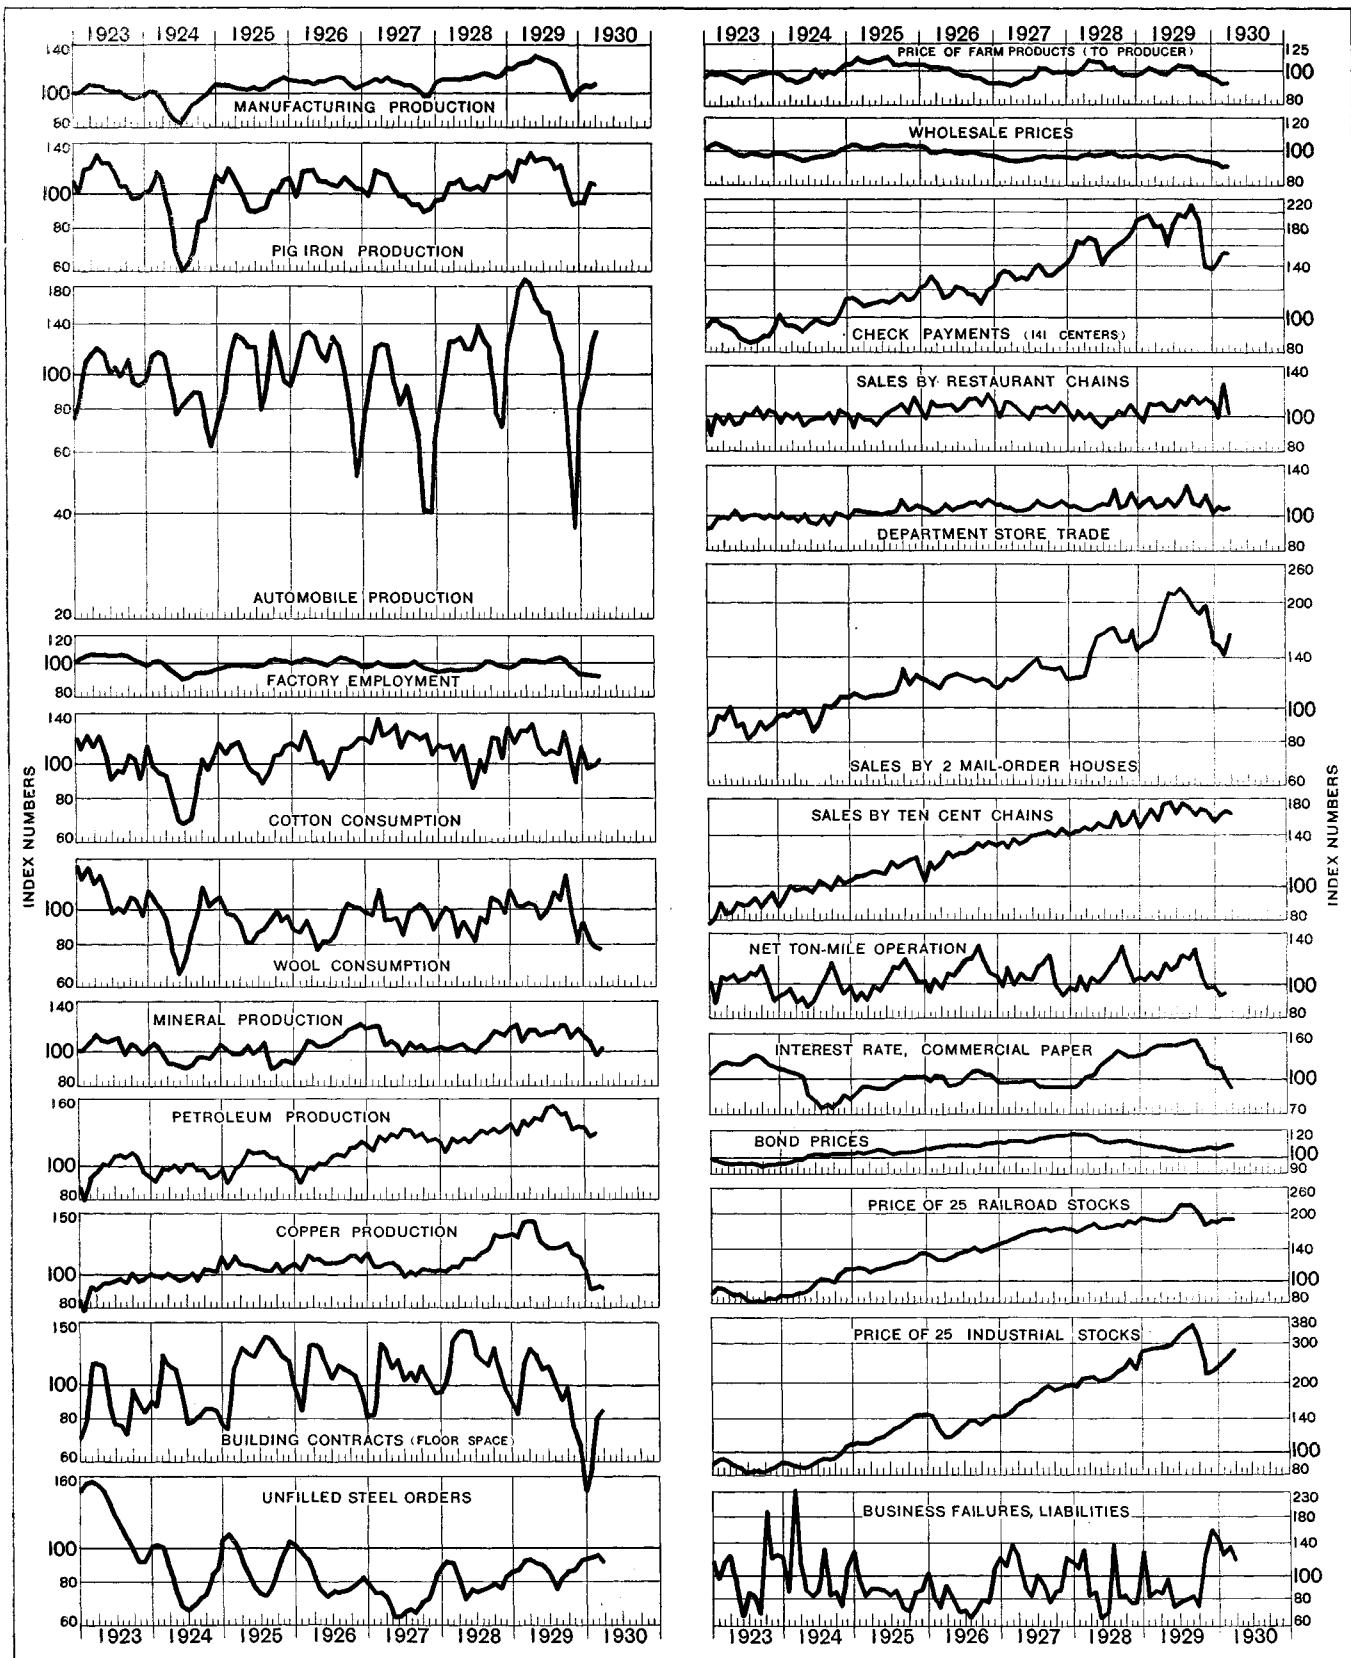

Prices for wheat declined continuously during the month, except for a slight recovery during the last week and were lower than during the corresponding month of last year. Cotton prices were slightly higher than the previous month but materially below the same period a year ago. The prices for iron and steel showed declines from both the month of April and May, 1929.

Bank loans and discounts showed little change from the previous month and were slightly larger than a year ago. Interest rates were lower than during either the previous month or the corresponding period a year ago. Brokers loans at the end of May were less than at the end of April or May, a year ago. Prices for stocks averaged lower than during April or May, 1929.

Bond prices were lower than the previous month but showed a gain over the same period of 1929. Business failures were somewhat fewer than in the previous month but more numerous than a year ago. Liabilities of failing firms were smaller than the month of April but higher than a year ago.

MONTHLY BUSINESS INDICATORS, 1923-1930

[Ratio charts—see explanations on inside front cover. The curves on check payments, wholesale trade, 10-cent chains, and department stores have been adjusted for normal seasonal variations, and manufacturing production for the varying number of working days in the month as well. 1923-1925 monthly average=100]

BUSINESS CONDITIONS IN APRIL

PRODUCTION

Manufacturing output in April, according to the weighted index of the Federal Reserve Board using adjustments for seasonal variations, was on a higher level than the previous month but showed a decline from a year ago. Gains in the production of iron and steel, food products, leather and shoes, nonferrous metals, rubber tires, and tobacco products more than offset declines in the production of textiles and cement, while the production of automobiles showed no change. As compared with April, 1929, all the groups except leather and shoes and petroleum refining showed a

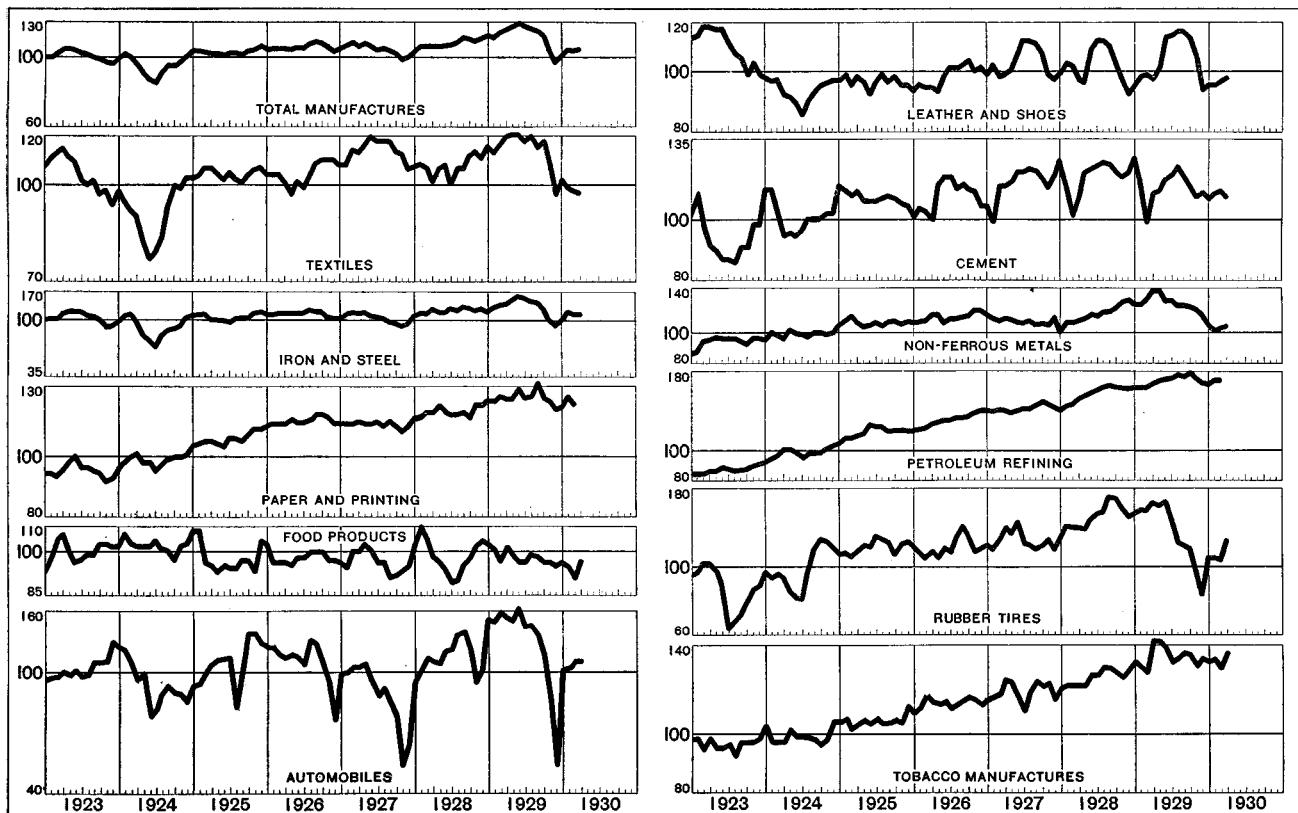

pared with the months of March and April, 1929, declines in unfilled orders occurred in textiles, iron and steel, transportation equipment, and lumber. Contrasted with a year ago unfilled orders for transportation equipment showed but slight changes, while other lines registered declines.

WHOLESALE TRADE

Wholesale trade in April was slightly less than during April, 1919, declines occurring in the sales of dry goods and hardware, while the sales of groceries and drugs showed no change. For the period of Jan-

MANUFACTURING PRODUCTION BY MAJOR GROUPS

[Relative numbers, monthly average 1923-1925 taken as 100, adjusted for seasonal variations]

decline in output. Mineral production, after adjustments for seasonal variations, was higher than in March, but was lower than in the corresponding period, a year ago.

COMMODITY STOCKS

Stocks of commodities held at the end of April, while showing a decline from the month of March, were greater than those held at the end of April, 1929. Stocks of finished goods in the hands of manufacturers showed gains over the preceding month and the same period a year ago.

SALES

The general index of unfilled orders was lower than the preceding month and April a year ago. As com-

uary 1 to April 30 sales of dry goods, hardware, and drugs were smaller than in the corresponding period a year ago, while those of groceries showed no change. Retail trade in June, as measured by department store sales after adjustments for seasonal variation, were at a higher level than in either the month of March or April, 1929.

IMPORTS AND EXPORTS

Imports of merchandise into the United States during April were greater than in March but considerably less than during the same period in 1929. Exports, however, showed losses when compared with the month of March and the corresponding period in 1929.

PRICES

The general index of wholesale prices showed only a slight change from the month of March and was 6 per cent lower than April, 1929. Almost all groups included in the index showed declines from a year ago. In comparison with the month of March the following groups registered declines, hides and leather products, textile products, metals and metal products, building materials, and chemicals and drugs. On the other hand, increases were noted in the prices of foods, fuel and lighting materials, and miscellaneous items, while the prices of house-furnishing goods showed no change.

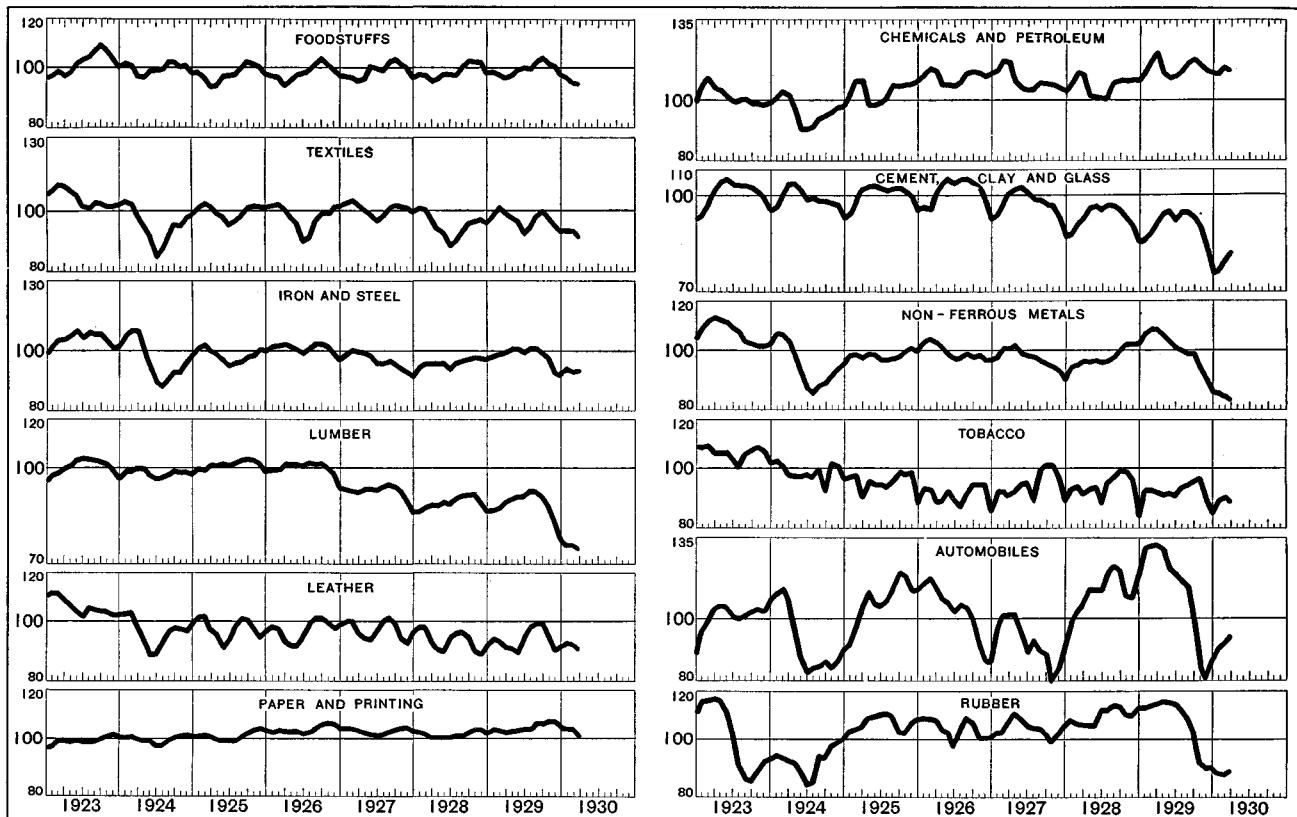

Classified by condition of manufacture, the index showed a decrease of 7 per cent in raw materials, 10

EMPLOYMENT

Factory employment in April, as measured by the Index of Employment compiled by the Federal Reserve Board, was 1 per cent less than the previous month and was 10 per cent lower than in April, 1929. As compared with the previous month, increases in employment in factories producing iron and steel, automobiles, cement, clay and glass, rubber products, more than offset declines in those producing machinery, textiles, foodstuffs, paper and its products, lumber, leather products, nonferrous metals, chemicals, and tobacco products. Compared with April a year ago, all lines showed losses in employment with the exception of the paper and printing groups

FACTORY EMPLOYMENT, BY GROUPS

[1926 monthly average=100. April, 1930, is latest month plotted]

per cent in semimanufactured commodities, 6 per cent in finished products, and 6 per cent in nonagricultural commodities.

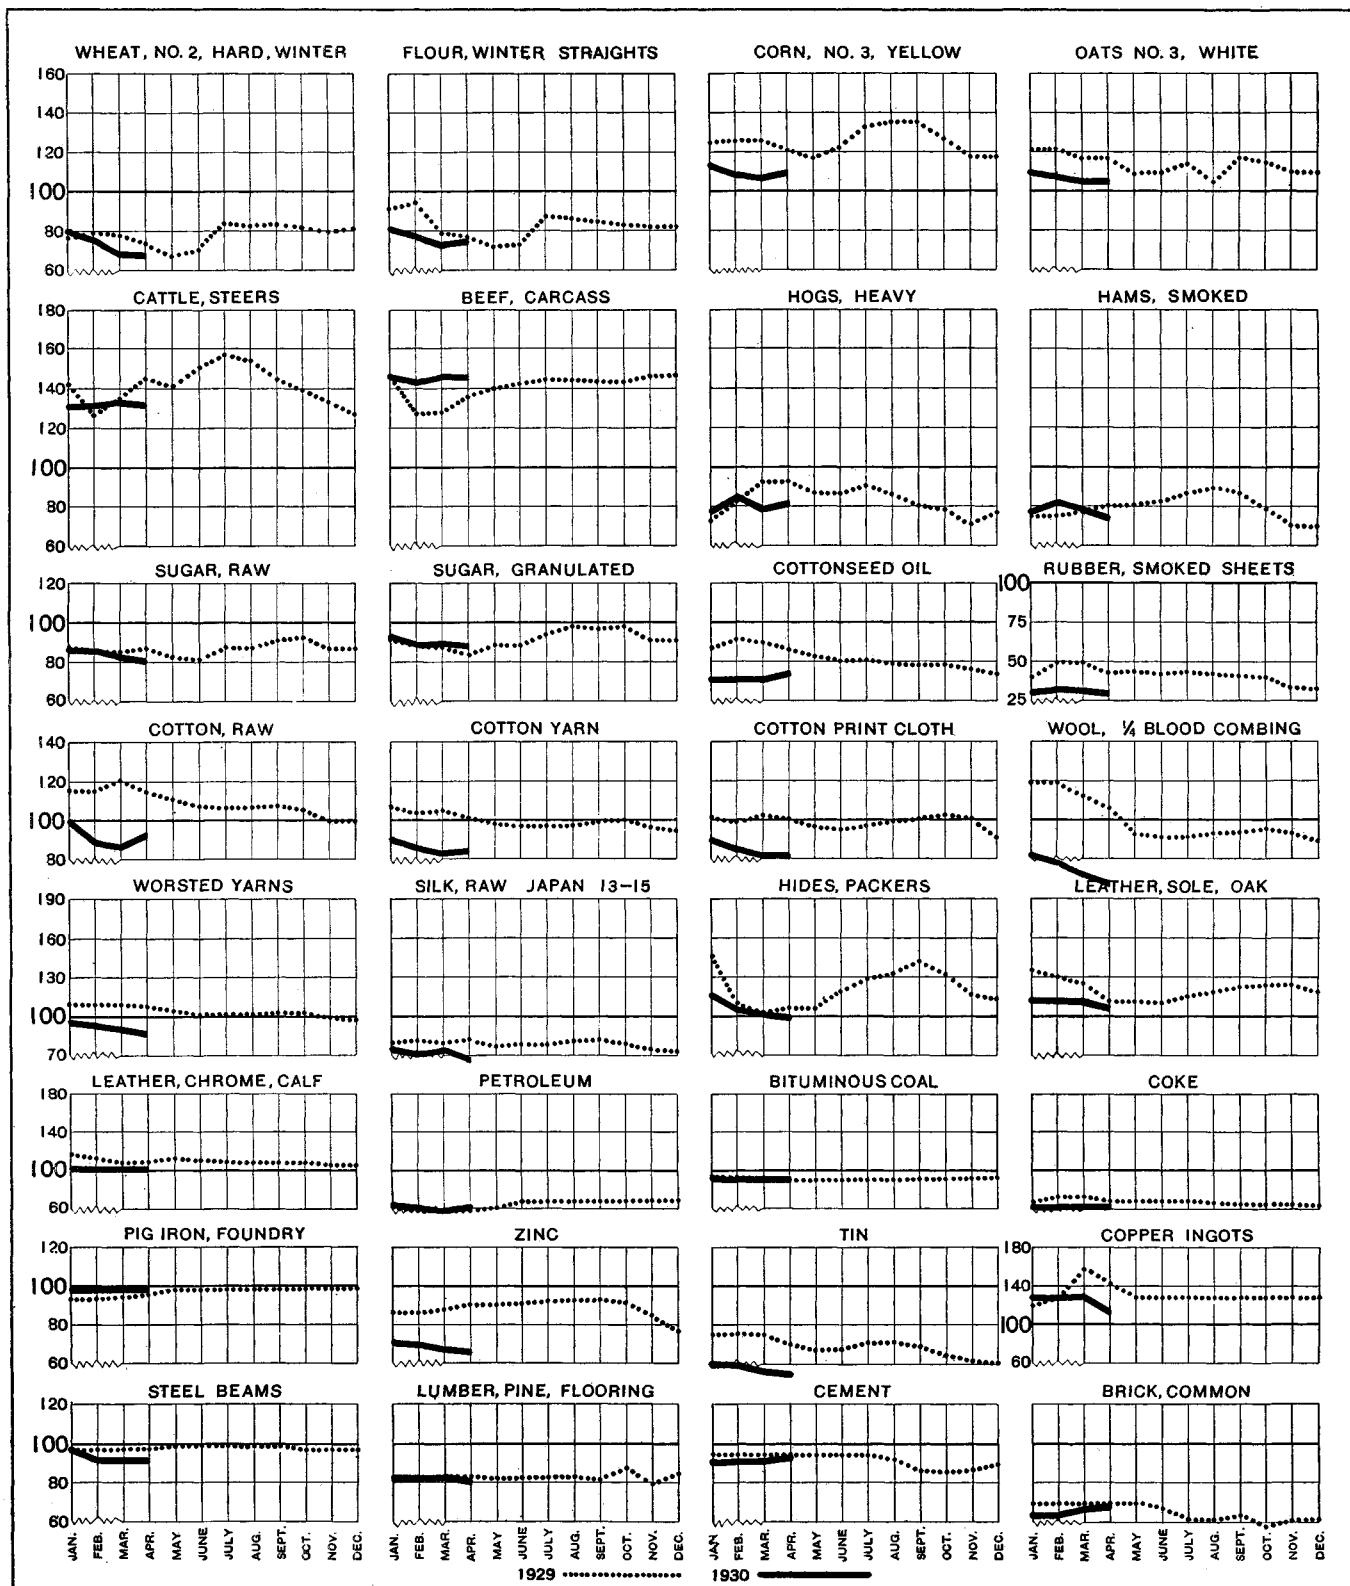

Prices paid to farmers during April for their products, as shown in the general index, were higher than during the month of March and 11 per cent below what they were in April, 1929. Compared with a year ago, gains in prices paid for fruits and vegetables were more than offset by declines in each of the other groups. As compared with the month of March, gains were noted in the prices of grains, fruits and vegetables, dairy and poultry products, cotton and cottonseed.

and petroleum refining, declines occurring in employment in the production of machinery, automobiles, cement, clay and glass, nonferrous metals, and rubber products.

Factory pay rolls in April showed only a slight change from March, but were 13 per cent less than a year ago. Declines from the previous month in wage payments were shown in factories producing machinery, textiles, paper and printing, lumber, leather, nonferrous metals, petroleum and tobacco products, but these were offset by increases recorded in factories producing iron and steel, automobiles, cement, clax and glass, and rubber products.

WHOLESALE PRICES FOR SPECIFIED COMMODITIES

[Relative numbers, 1926 monthly average taken as 100. April, 1930, is latest month plotted. Data from which these charts are drawn are given on the opposite page.]

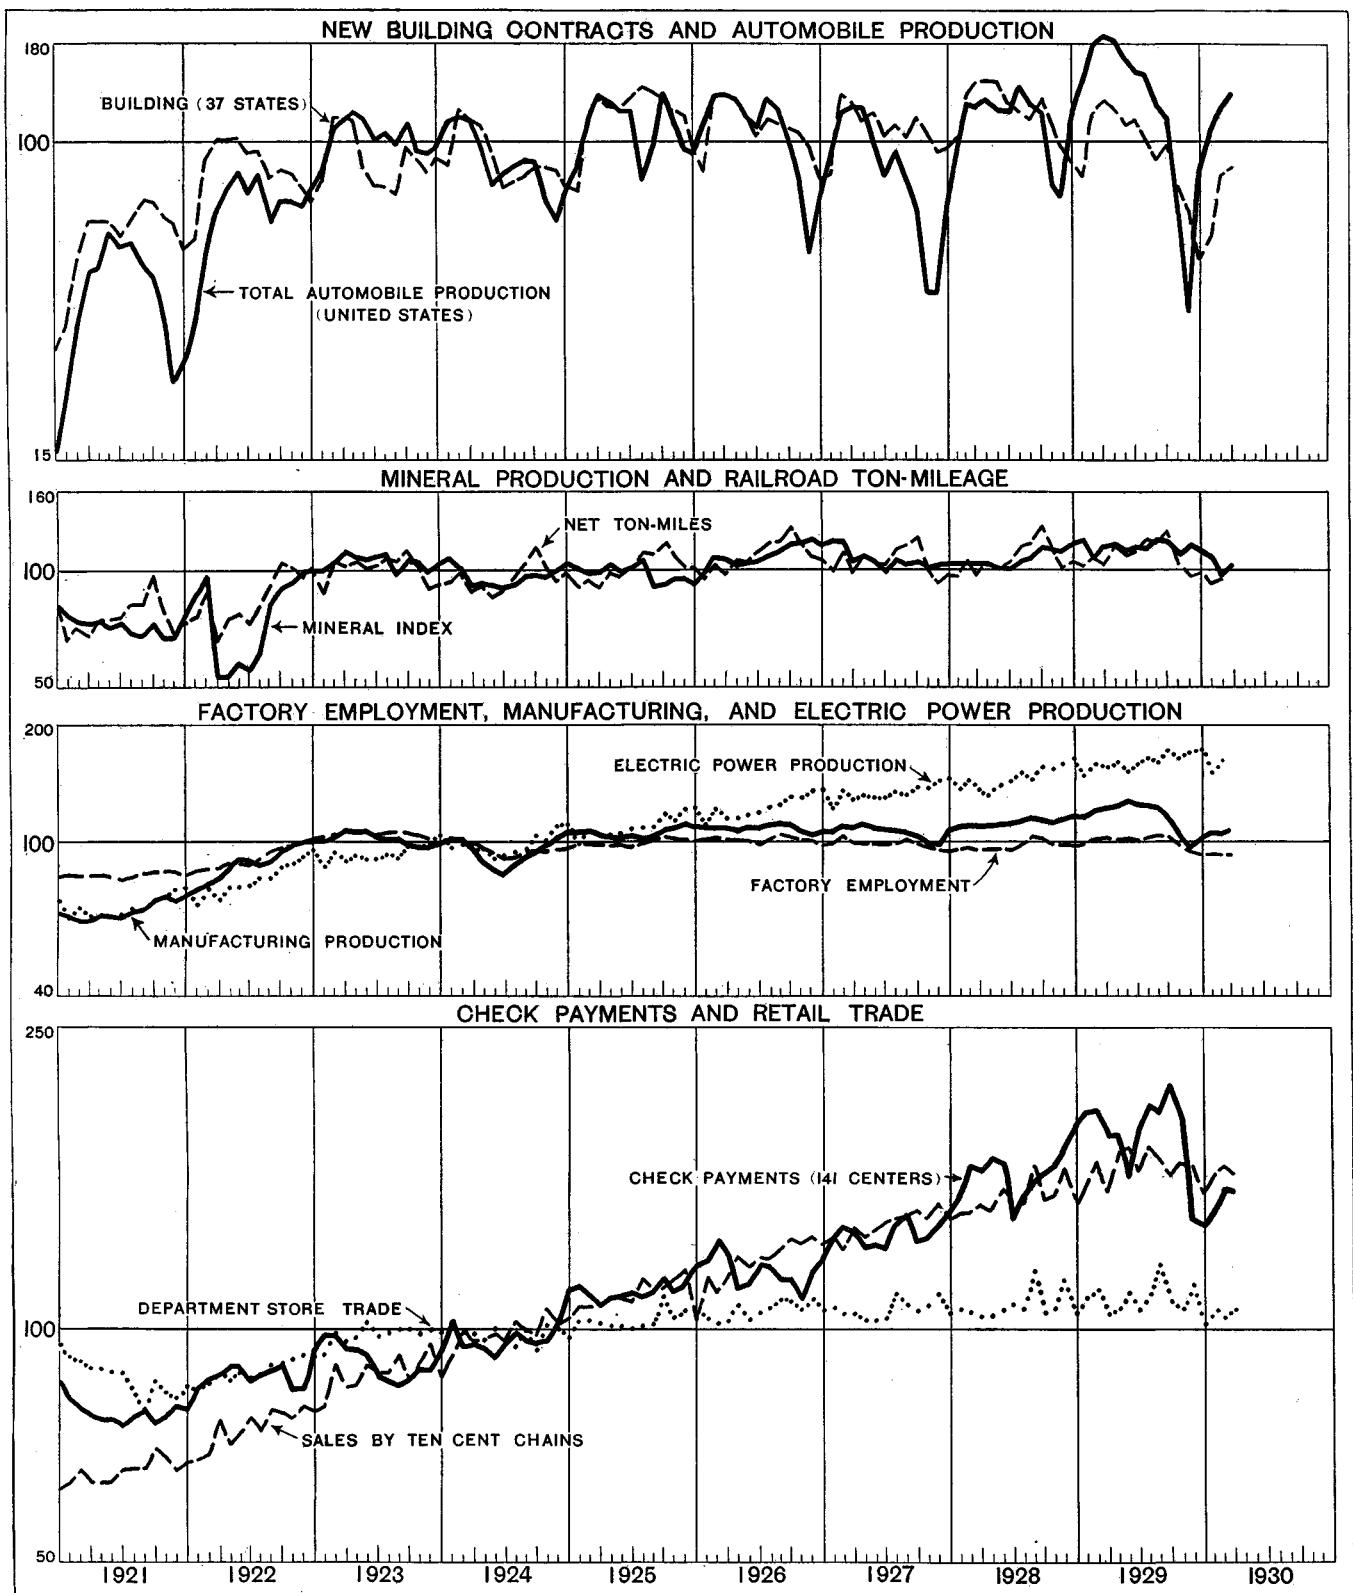

WHOLESALE PRICES FOR SPECIFIED COMMODITIES

NOTE.—Prices to producer on farm products and market price of wool and grain prices are from U. S. Department of Agriculture, Bureau of Agriculture Economics; nonferrous metals from the *Engineering and Mining Journal-Press*, except tin, which is from the American Metal Market. All other prices are from U. S. Department of Labor, Bureau of Labor Statistics. So far as possible all quotations represent prices to producer or at mill.

MEASURES OF INDUSTRIAL AND COMMERCIAL ACTIVITY

[Relative numbers, monthly average 1923-1925, taken as 100]

REVIEW OF PRINCIPAL BRANCHES OF INDUSTRY AND COMMERCE

TEXTILES

Imports of wool during April were smaller than during March and were more than 36 per cent less than during April, 1929. Wool consumption by manufacturers was smaller than during either prior period. Prices for wool and yarns averaged lower than in either the previous month or the same month of last year.

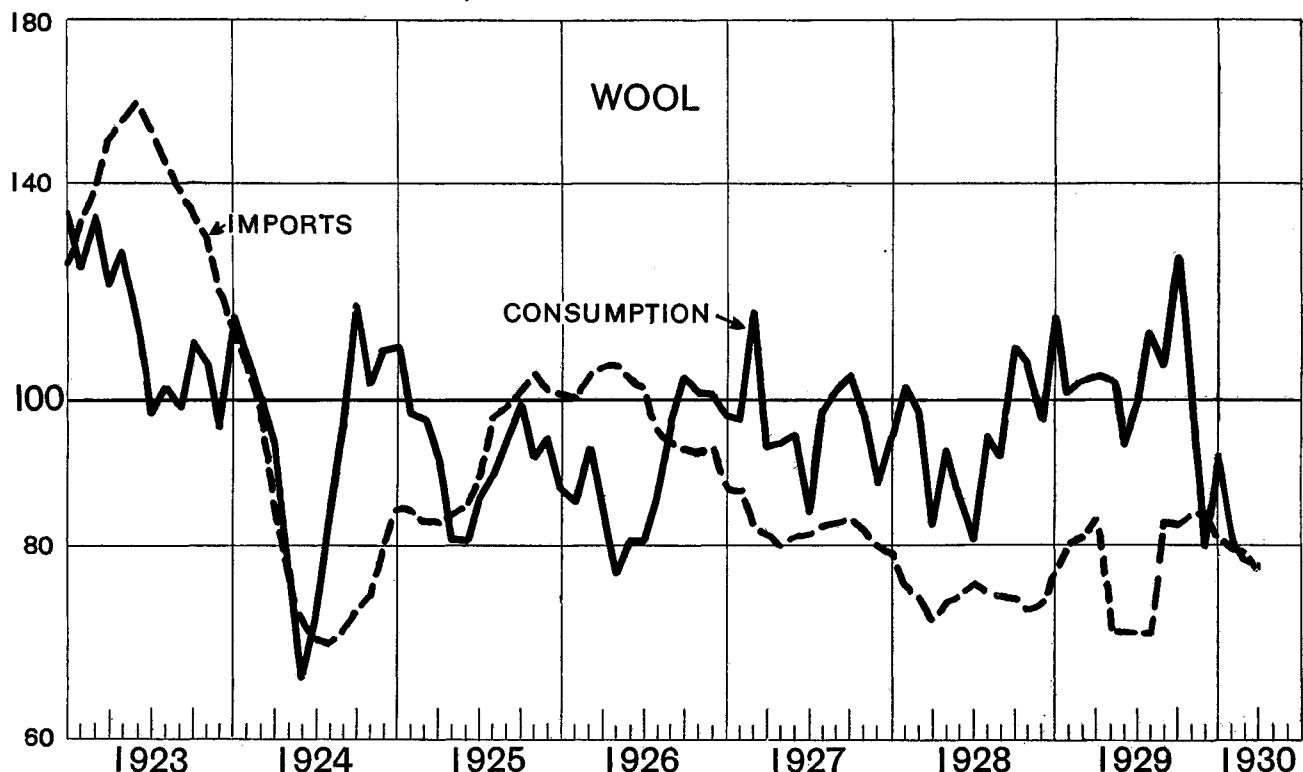

Exports of cotton during April declined seasonably from the previous month and were 22 per cent smaller

of March and 26 per cent greater than in April a year ago. Cotton finishers reported smaller billings than during March or April a year ago. New orders and shipments likewise showed declines from both periods. Stocks of finished goods in the hands of finishers, on the other hand, showed increases over the previous month and the corresponding month of last year.

Imports of raw silk during April were slightly smaller than during the previous month or the corresponding period of 1929. Silk deliveries to consuming establish-

WOOL CONSUMPTION AND IMPORTS

[Relative numbers, monthly average 1923-1925 taken as 100. Curve covering imports of wool is plotted from 12 months' moving monthly average plotted on the end month]

than a year ago. Consumption of cotton by domestic mills showed an increase of 5 per cent over the month of March, but was 15 per cent less than during April, 1929. Stocks of cotton at mills and public warehouses at the end of April, while less than in March, were substantially greater than a year ago.

Cotton machinery showed a slight decline in activity when compared with March, and was 6 per cent less active than the month of April, 1929. The production and shipments of cotton textiles were also smaller than during the previous month or the corresponding period of last year. Stocks of cotton textiles at the end of April, on the other hand, were larger than in the month

ments were likewise smaller than during either comparative period. Stocks of silk at warehouses at the end of April were considerably greater than a year ago. The activity of broad and narrow silk looms was less than during March or April, 1929. On the other hand, the activity of silk spindles, while less than during March, was greater than a year ago.

Rayon imports during April declined from March and were 46 per cent less than a year ago. Wholesale prices at New York remained unchanged from March, but were below the level of April, 1929. Shipments of pyroxylin-coated textiles registered a gain over March, but were considerably below April, a year ago.

METALS

The production of pig iron in April fell off slightly from March and was 13 per cent smaller than in April, 1929. Fewer furnaces were in blast than during March or April last year.

The production of steel ingots declined during April from the previous month and was 16 per cent less than the corresponding period a year ago. Unfilled orders of the United States Steel Corporation showed slight declines from March and April, 1929.

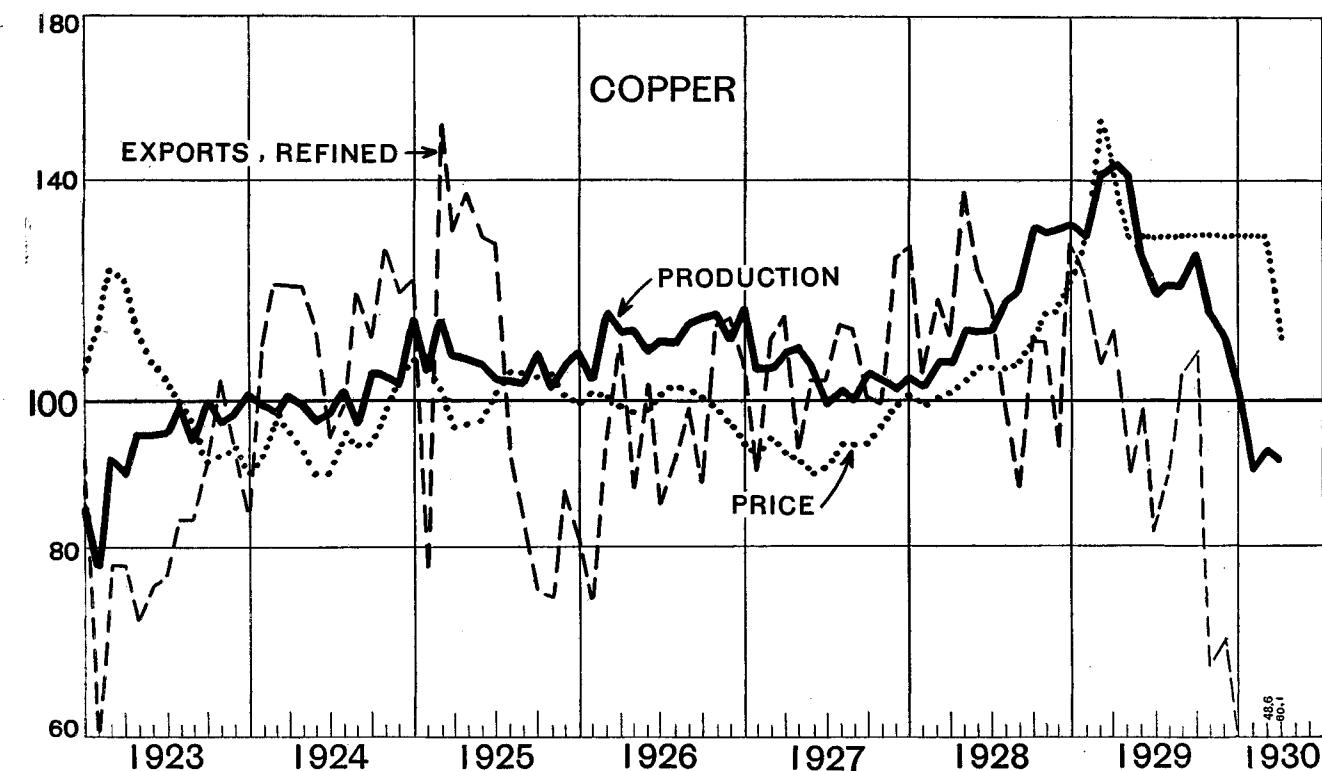

The output of steel sheets by independent mills showed an increase of 19 per cent over the preceding

other hand, registered declines from both prior periods. New orders for both steel and malleable castings were lower in April or in March of the preceding year.

New orders for fabricated steel plate were smaller in April than both comparative periods. Production of steel barrels, while less than in March, showed but a slight change when compared with a year ago. New orders for steel boilers registered a gain of 4 per cent over March, but were considerably less than a year ago. Shipments of woodworking machinery were off from March and April, 1929; new orders, while less than the preceding month, were 3 per cent more than

COPPER PRODUCTION, EXPORTS, AND STOCKS

[Relative numbers, monthly average 1923-1925=100. April, 1930, is latest month plotted]

month but registered a decline from a year ago. The ratio of production to capacity likewise showed similar trends. Stocks of sheets in the hands of manufacturers at the end of April were greater than the preceding month or a year ago. Unfilled orders while registering an increase over March declined from the same period of last year. Wholesale prices for steel on the whole showed but slight change from March, but were below the level of April, 1929.

The production of steel castings showed but a slight loss from March and were 9 per cent below the month of April, 1929. Malleable castings output, on the

in April, last year. Shipments of electric trucks and tractors were less than during either prior period.

The mine production of copper in April showed but a slight decrease when compared with a month ago, but was materially below the corresponding period a year ago. Exports of refined copper in April were 24 per cent greater than in March, but were below the level of April, 1929. Deliveries of tin showed declines from both March of this year and April of last year. April production of both lead and zinc was less than that of both prior periods.

FUELS

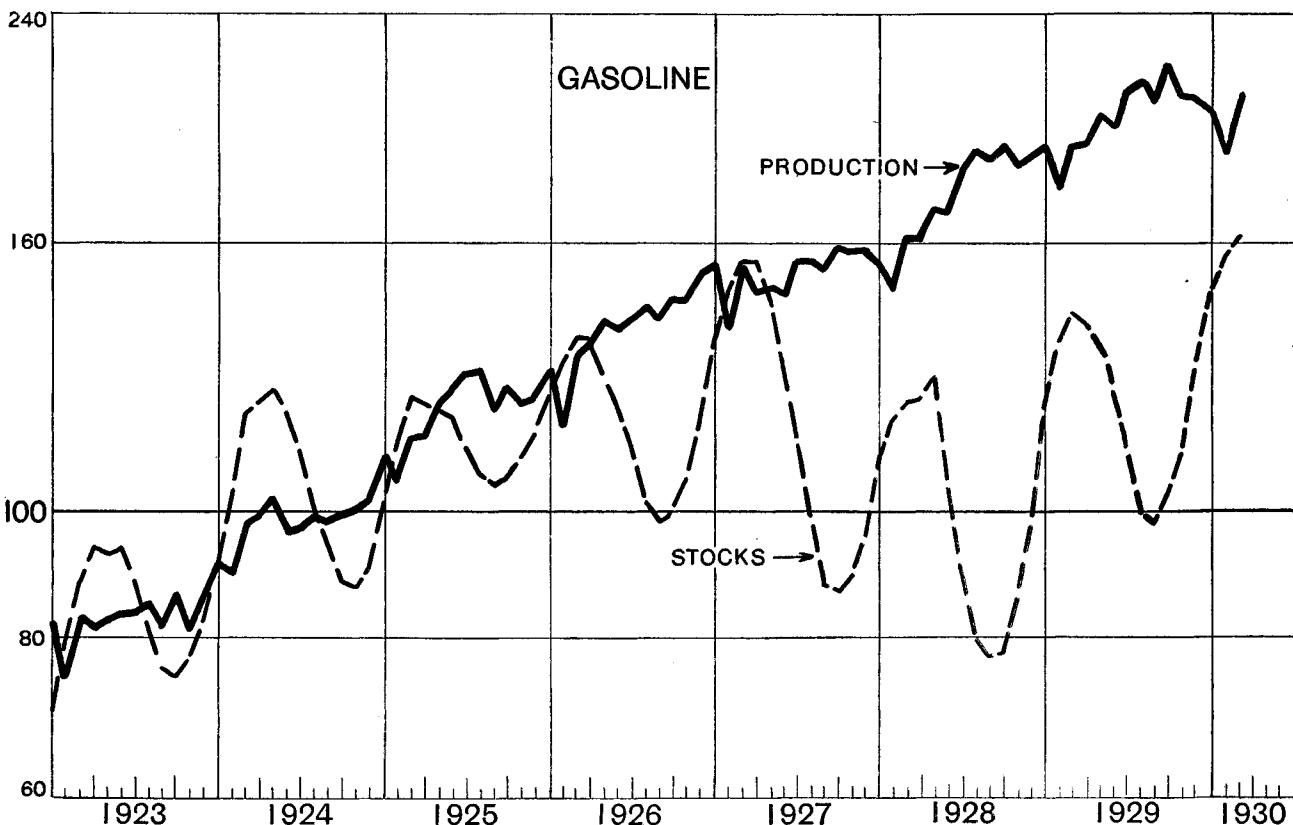

The output of bituminous coal increased seasonally over March and was 4 per cent less than in April, 1929. Anthracite coal production, on the other hand, while registering an increase of 8 per cent over the preceding month, also declined from the corresponding period a year ago. Average coal prices showed but slight change when compared with the preceding month, but were less than in April, 1929. The production of coke in April was less than during the previous month or April a year ago. The price of coke at Connellsville, while showing no change from the preceding month, was 7 per cent below the level of a year ago.

HIDES AND LEATHER

Imports of hides and skins during April were greater than during the month of March and a year ago. Production of sole leather also was greater than for either previous periods. Exports of sole and upper leather showed declines when compared with the preceding month and with April, 1929. Wholesale prices of hides and leather were generally smaller than either comparative period. Production of shoes, reflecting the changes in style, was greater than in March and slightly less than April, 1929. The exports of shoes declined seasonally from both periods. Shoe prices during April remained unchanged from the month of March and April of last year.

PRODUCTION AND STOCKS OF GASOLINE

[Relative numbers, monthly average 1923-1925 taken as 100. March, 1930, is latest month plotted]

AUTOMOBILES AND RUBBER

The production of automobiles, including passenger cars, trucks, and taxicabs, showed an increase of 10 per cent over the previous month, but was 29 per cent below the level of April, 1929. The Canadian output registered similar trends in comparison with both periods, the percentage declined from last year's level being greater than in the United States. The production of tires and tubes in April, following the trend of increased automobile production, showed a gain over the month of March, but declined from a year ago.

PAPER AND PRINTING

Imports in most cases during April were less than during March, and in every instance below the level of the corresponding period of last year. The domestic production of newsprint showed a decline from March, a year ago. The Canadian production, on the other hand, showed increases over both periods. Stocks of newsprint at the end of April were slightly larger than at the end of the previous month, but were smaller than a year ago. Stocks in Canada, however, exceeded those at either prior period. Publishers' stocks, while smaller than at the end of the preceding month, were 19 per cent greater than a year ago.

BUILDING AND CONSTRUCTION

Building costs on the whole showed but slight change from the preceding month, but were generally lower than a year ago. The value of new-building contracts awarded in April, while greater than the month of March, registered a decline as compared with April, 1929. April contracts awarded in Canada registered large gains over both this March and April last year. Fire losses in the United States were slightly greater than during the preceding month and April, 1929. Losses by fire in Canada, while less than the month of March, exceeded those of a year ago.

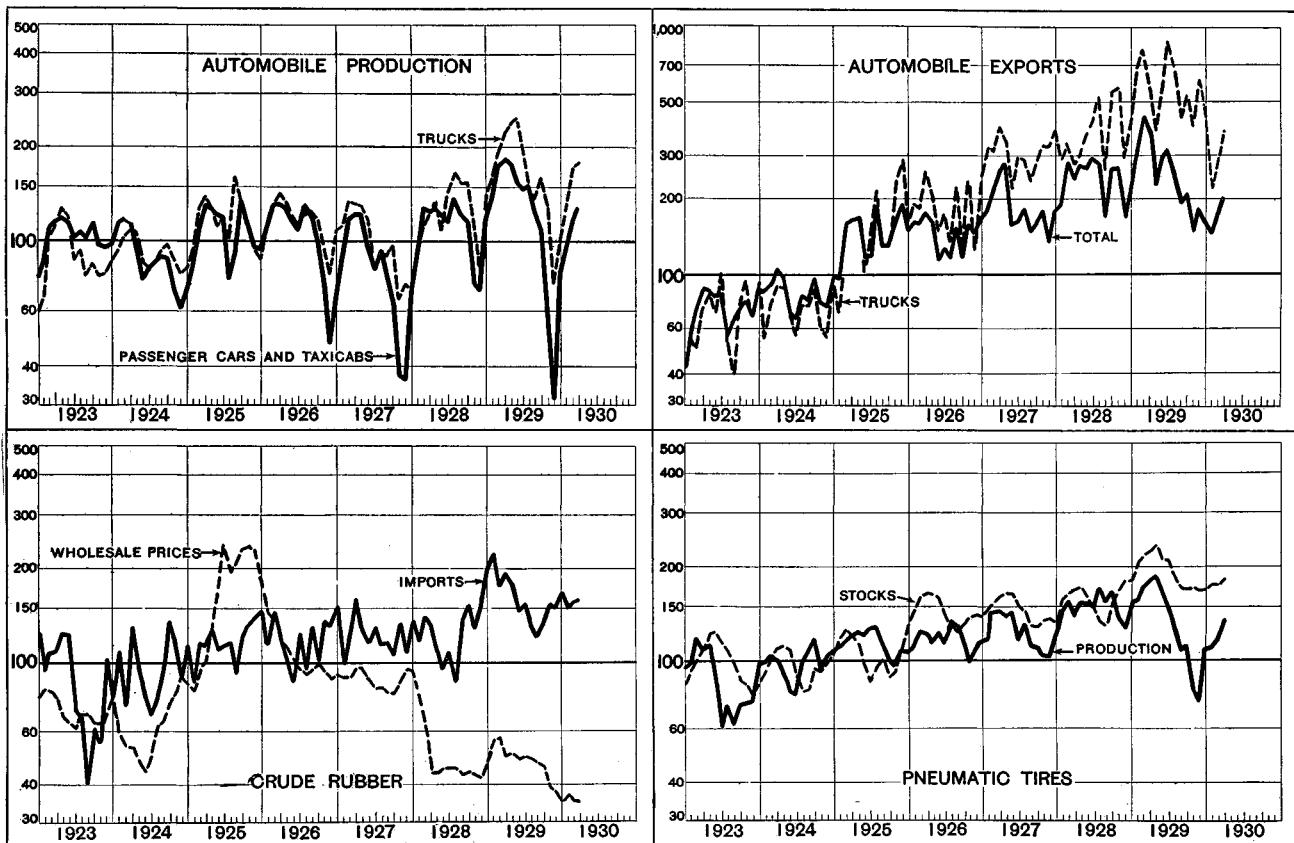

New orders for fabricated-structural steel were fewer than the preceding month or April a year ago. Shipments, on the other hand, showed increases over both periods.

STONE, CLAY, AND GLASS

The production of cement showed an increase of 21 per cent over the output for March, but was slightly less than a year ago. Shipments during April showed gains over both comparative periods. Stocks of clinker held at the end of April, while greater than those held at the end of March, showed a decline from the same period a year ago. Shipments of common

THE AUTOMOBILE AND RUBBER INDUSTRIES

[Relative numbers, monthly average 1923-1925 taken as 100. Where available, April, 1930, is latest month plotted]

LUMBER AND BUILDING EQUIPMENT

The production of lumber was generally larger during April, but was less than the corresponding period in 1929. Marked increases over March were noted in the output of California redwood, California white and sugar pine, Northern pine and Walnut lumber. Shipments also were greater than during the month of March. Stocks held at the end of March, reflecting increased production, showed a marked gain in the case of California white pine, being greater than those held at the end of March and the same month of last year.

The output of maple flooring was 6 per cent greater than during the previous month, but was slightly less than the production during April, 1929.

brick were substantially larger than the previous month, but materially lower than a year ago. Prices for brick at New York showed a slight gain over March, but were lower than a year ago. The output of polished plate glass, in keeping with the gains of other items of building equipment, registered an increase over March, but was lower than a year ago.

Shipments of prepared roofing likewise recorded an increase over the preceding month, but declined from last year.

Shipments and new orders for wooden furniture during April showed declines from the preceding month and the corresponding period a year ago. Steel furniture likewise showed similar declines.

FOODSTUFFS AND TOBACCO

The visible supply of wheat both in the United States and Canada declined seasonally from the preceding month and was much greater than a year ago. The shipments of wheat at principal markets during April showed an increase over the preceding month and April, 1929. Exports of wheat from the United States were substantially larger than in March, but were lower than a year ago. Wheat prices at various centers on the whole showed slight change from the preceding month, but were lower than last year.

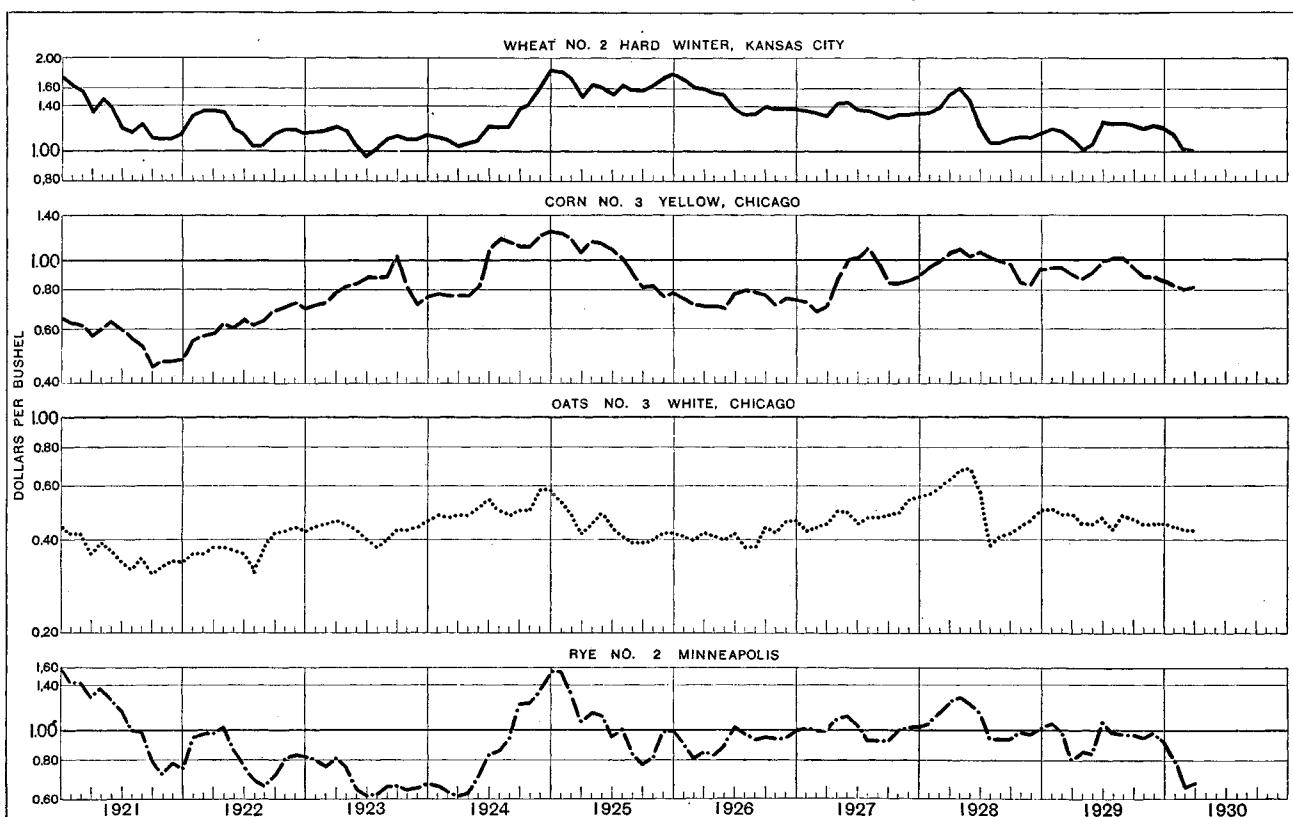

The visible supply of corn registered declines from both the preceding month and the same period a year

a decline from the preceding period. Wholesale prices of 92 score butter at New York showed an increase of 5 per cent over the price that ruled in March.

Receipts of all types of cheese at principal markets during April were 6 per cent greater than a year ago, while storage holdings showed a slight decline. Imports of sugar, while showing a gain over March, were less than the previous year. For the first four months of the year imports of sugar from Hawaii and Porto Rico registered a gain of 35 per cent over the same period of 1929. Stocks of sugar held at refineries showed large gains over March, but fell off from the level of April, 1929.

MOVEMENT OF GRAIN PRICES

[Weighted price per bushel. April, 1930, is latest month plotted]

ago. Receipts and shipments of corn showed increases over the preceding month and April of last year. The receipts of barley at principal centers declined seasonally from the month of March.

Receipts and shipments of cattle during April at primary markets, while greater than during March, declined from a year ago. Hog receipts and shipments declined seasonally. Storage holdings of pork products were 26 per cent lower than a year ago. Wholesale prices for pork averaged lower in April than in the preceding month or April, 1929. Receipts of poultry at five principal markets registered gains over the preceding month and April a year ago. Storage holdings showed a decline.

Butter production in April was 16 per cent greater than March, cold storage holdings, however, showed

Imports of coffee, while less than the preceding month, were 8 per cent greater than a year ago. Wholesale prices for coffee showed declines from the preceding month and April, 1929. Tea imports during April, while less than in March, were 7 per cent greater than April, last year. The wholesale price of tea at New York declined 9 per cent from last year.

The consumption of cigarettes during April, while showing a gain of 4 per cent over March, was slightly less than the same period a year ago. The consumption of large cigars, however, showed a decline from a year ago. For the first four months of the year cigarette consumption was 2 per cent greater and large-cigar consumption 7 per cent less than in the same period a year ago.

TRANSPORTATION

Freight-car loadings in April showed a decline from the previous month and the corresponding period a year ago. For the first four months of the year total loadings were 7 per cent less than what they were during the corresponding period a year ago. Clearances of vessels engaged in foreign trade showed a marked gain for the first four months of the year over the corresponding period a year ago. Traffic on inland rivers was uniformly larger than in March and, except on the Allegheny River, was smaller than a year ago. New orders for locomotives and freight cars were fewer than for each prior period.

DISTRIBUTION

Sales by mail-order houses showed a substantial gain over the preceding month and were greater than a year ago. For the first four months of this year the sales of the houses showed but slight difference from a year ago. The volume of business transacted by leading 10-cent chains was 10 per cent greater than during March and 11 per cent over April, 1929. For the year to date the increase in sales was 2 per cent over the same period a year ago. Magazine advertising as measured in lineage showed a gain of 5 per cent over March, but registered a slight loss when compared with April, 1929. Newspaper advertising also increased over the preceding month, while the amount of advertising by radio declined. Postal receipts in principal cities showed a gain over the month of April of last year.

BANKING AND FINANCE

Bank loans and discounts at the end of April, while showing but a slight change from the end of March, were 3 per cent over a year ago. The Federal reserve ratio registered gains over both prior periods. Interest rates were generally lower than in the month of March and the corresponding period a year ago.

Dividend and interest payments paid during April showed a marked gain of 22 per cent over the month of March and 10 per cent over a year ago, while for the first four months of the year a gain of 16 per cent was registered. Prices for industrial stocks showed a gain of 7 per cent over March, but were lower than a year ago. Bond prices were generally lower than in the preceding month but were higher than a year ago.

New sales of ordinary life insurance showed a seasonal decline from March but were 6 per cent greater than a year ago.

GOLD, SILVER, AND FOREIGN EXCHANGE

Receipts of domestic gold at the mint during April were greater than during March or the corresponding month a year ago. The Rand production of gold fell off from the month of March and April, 1929. Gold imports of bullion and coin showed marked gains over both prior periods.

Silver production in the United States registered declines from the preceding month and the corresponding period of 1929. Silver imports and exports, contrary to the movement of gold, showed declines from both comparative periods. The price of silver at New York, although increasing over the month of March, was 24 per cent below the level of last year.

Rates for foreign exchange in April were generally the same as in preceding month and in the corresponding period a year ago, the only exception being in the rates with Belgium, the Netherlands, Japan, Canada, Argentina, and Chile, which showed slight increases over March. As compared with a year ago, rates with England, Belgium, the Netherlands, Sweden, Switzerland, Japan and Canada, showed increases, while rates with Argentina and Brazil declined. Rates of exchange with France and Italy remained unchanged from the month of March and April, 1929.

INDEXES OF BUSINESS

The index numbers presented in this table are designed to show the trend in production, prices, trade, etc., by commodities or groups. They consist in general of weighted combinations of series of individual relative numbers; often the individual relative numbers are also given. The function of index and relative numbers is explained on the inside front cover. All of the index numbers, except where noted, are based on the average of the years 1923 to 1925, while maxima and minima are given only since 1923, thus eliminating the abnormal period prior to 1923. Complete descriptions and figures for earlier years may be found in the following issues of the Survey (later data being available in the latest semiannual issues): Production in the July, 1928, issue (No. 83), pages 18 to 22; stocks in the August, 1928, issue (No. 84), pages 20 to 22; new orders in the September, 1928, issue (No. 85), page 19; unfilled orders in the January, 1928, issue (No. 77), pages 22 and 23; wholesale trade in the January, 1928, issue (No. 77), page 21; mail-order and chain stores in the May, 1928, issue (No. 81), pages 20 and 21; department stores in the April, 1928, issue (No. 80), pages 20 and 21; employment, based on 1923 as 100, in the August, 1928, issue (No. 84), page 108; farm prices in the August, 1928, issue (No. 84), page 27; wholesale prices (Department of Labor) in the November, 1927, issue (No. 75), page 24, and the June, 1928, issue (No. 82), page 23; wholesale prices, commercial, in the August, 1928, issue (No. 84), page 26; cost of living in the August, 1928, issue (No. 84), page 27, and the June, 1926, issue (No. 58), page 24.

TREND OF BUSINESS MOVEMENTS

The following table contains a summary of the monthly figures, designed to show the trend in important industrial and commercial movements. These data represent continuations of the figures presented in the latest semiannual number (February, 1930), in which monthly figures for 1929 and 1930 may be found, together with explanations as to the sources and exact extent of the figures quoted. The figures given below should always be read in connection with those explanations. Data on stocks, unfilled orders, etc., are given as of the end of the month referred to. For explanations or relative numbers, including base periods, see introduction on inside front cover.

The cumulatives shown are through February. Earlier data for items shown here may be found on pages 27 to 138 of the February, 1930, "Survey"	1929		1930				1929		PER CENT INCREASE (+) OR DECREASE (-)		CUMULATIVE TOTAL FROM JAN. 1 THROUGH APR. 30		Per ct. increase (+) or decrease (-) cumulative 1930 from 1929

^a Cumulative through Mar. 31.^b Revised.

PUBLICATIONS OF THE DEPARTMENT OF COMMERCE

Recent publications of the Department of Commerce having the most direct interest to readers of the *Survey of Current Business* are listed below. A complete list may be obtained by addressing the Division of Publications, Department of Commerce, at Washington. Copies of the publications may be purchased from the Superintendent of Documents, Government Printing Office, Washington, at the prices stated. If no price is mentioned, the publication is distributed free.

Aviation. *Air Commerce Bulletin.* Issued semimonthly by the Aeronautics Branch of the Department of Commerce and contains short articles on aviation developments and a list of air transport routes.

— *Airports and Landing Fields.* 16 pages. (Aeronautics Branch. Aeronautics Bulletin No. 5.) This publication lists airports and landing fields now in operation and contains a list of proposed airports.

Bureau of Standards Journal of Research. Published monthly and contains the papers formerly issued as Scientific and Technologic Papers series, which have been discontinued. The articles in the journal are known as the Research Papers series and are issued separately after publication in the journal. Single copies, 40¢; annual subscription, \$2.75.

Chemicals and drugs. *Evolution of Hydrogen Sulphide from Vulcanized Rubber.* by Edward Wolesensky. (Bureau of Standards. Research Paper No. 162.) Reprint from Bureau of Standards Journal of Research, vol. 4, Apr., 1930, pp. 501-513. Price, 5¢.

— *German Chemical Developments in 1929.* ii+32 pages. (Bureau of Foreign and Domestic Commerce. Trade Information Bulletin No. 690.) Deals with the technical progress made in the chemical industry during 1929, dye trust activities, and fixed nitrogen, potash, and super-phosphate industry operations. An appendix contains data on the German dye trust structure. Price, 10¢.

Color. *Reduction of Data on Mixture of Color Stimuli.* by Deane B. Judd. (Bureau of Standards. Research Paper No. 163.) Reprint from Bureau of Standards Journal of Research, vol. 4, Apr., 1930, pp. 515-548, 6 illus. Price, 10¢.

Commercial standards. *Commercial Standards Service and its Value to Business.* vi+34 pages, 3 illus., 1 plate, 1 chart. (Bureau of Standards. Commercial Standard CSO-30.) Account of the beginning of organized standardization activities, the application of commercial standards and the work of the Standards Bureau in this service. Examples of standards are given. Price, 10¢.

— *Foundry Patterns of Wood.* ii+18 pages, 1 plate. (Bureau of Standards. Commercial Standard CS19-30.) Price, 10¢.

— *Hickory Golf Shafts.* iv+14 pages, 3 illus. (Bureau of Standards. Commercial Standard CS18-29.) Price, 10¢.

Commercial Standards Monthly. *Review of Progress in Commercial Standardization and Simplification.* Published monthly by the Bureau of Standards. Annual subscription, \$1.

Employment for Americans in Latin America. Fifth edition. ii+20 pages. (Bureau of Foreign and Domestic Commerce.) Discussion of the limited opportunities for employment of Americans in Latin American countries.

Foodstuffs. *Salvador as Market for Foodstuffs.* ii+21 pages. (Bureau of Foreign and Domestic Commerce. Trade Information Bulletin No. 692.) Brief account of the general economic conditions and the market for specific commodities in Salvador. Price, 10¢.

Fruit. *Fruit Markets in Eastern Asia: Joint Investigation by U. S. Department of Commerce and University of California.* ii+14 pages. (Bureau of Foreign and Domestic Commerce. Trade Information Bulletin No. 693.) Study of the fruit market conditions in eastern Asia, selling agencies available, methods of trade promotion, and retail prices. Suggestions are given as to size of packages for shipments. Price, 10¢.

Hydrography. *Slope Corrections for Echo Soundings.* by A. I. Shalowitz. ii+24 pages, 7 illus., 1 plate, 4 charts. (Coast and Geodetic Survey. Special Publication No. 165.) Description of method used in taking depth soundings for ocean surveys. Price, 10¢.

Index to Commerce Reports, Nos. 1-13, Volume 1. Thirty-third Year, Jan.-Mar., 1930. ii+xxiv pages. This index is issued quarterly and lists all material published in Commerce Reports by subject, country, and author. Single copies, 5¢; annual subscriptions, 20¢.

Iron and Steel. *Physical Properties of Electrically Welded Steel Tubing.* by H. L. Whittemore, J. S. Adelson, and E. O. Sequist. (Bureau of Standards. Research Paper No. 161.)

Lumber. *Treated Lumber, Its Uses and Economics.* Report of Subcommittee on Retail Distribution of Treated Lumber of National Committee on Wood Utilization. vi+42 pages, 15 illus. Report on the causes of deterioration of wood, such as dampness and insect pests, and the best methods of treatment for its preservation. An appendix gives data regarding amounts, kinds, and qualities of preservatives used in treating different kinds of wood. A bibliography on wood preservation is included. Price, 15¢.

Machinery. *Engine-Ignition Shielding for Radio Reception in Aircraft.* by H. Diamond and F. G. Gardner. (Bureau of Standards. Research Paper No. 158.) Reprint from Bureau of Standards Journal of Research, vol. 4, March, 1930, pp. 415-424, 2 illus., 10 pages of plates. Report on experiments to determine requirements for ignition shielding on aircraft. Price, 15¢.

— *Markets for Sawmill and Woodworking Machinery in Scandinavia and Baltic States.* ii+26 pages. (Bureau of Foreign and Domestic Commerce. Trade Information Bulletin No. 691.) Price, 10¢.

Maizolith. *Manufacture and Properties of Cellulose Product (Maizolith) from Corncobs and Cornstalks.* ii+10 pages, 2 illus., 7 charts. (Bureau of Standards. Miscellaneous Publication No. 108.) Discussion of the methods and cost of manufacture of maizolith, with suggestions for uses. Price, 5¢.

Manufactures. *Census of Manufactures, 1927: Summary by Industry Groups and by Industries.* 56 pages. (Bureau of the Census.) Price, 10¢.

Marine Standards. *Mooring Pipes for Ships, Oval and Circular Types.* Compiled and Promulgated by American Marine Standards Committee. 4 pages, 2 pages of illus. (Bureau of Standards. American Marine Standards H. No. 51-1929 and H. No. 52-1929.) Price, 5¢.

Metals and Minerals. *Bauxite and Aluminum in 1928.* (Bureau of Mines. Mineral Resources of United States, 1928, Pt. I, pp. 423-427.) Price, 5¢.

— *Bismuth.* ii+41 pages, 26 illus. (Bureau of Standards. Circular No. 382.) Study of the sources and properties of bismuth, the methods of refining, and the uses of this metallic element by itself and with alloys. Price, 10¢.

— *Gold, Silver, Copper, Lead, and Zinc in Nevada in 1928.* by V. C. Heikes. (Bureau of Mines. Mineral Resources of United States, 1928, Pt. I, pp. 441-478.) Price, 10¢.

— *Gold, Silver, Copper, Lead, and Zinc in Utah in 1928.* by C. N. Gerry. (Bureau of Mines. Mineral Resources of United States, 1928, Pt. I, pp. 479-527.) Price, 10¢.

— *International Trade in Mica.* by Joseph Ulmer. iv+70 pages. (Bureau of Foreign and Domestic Commerce. Trade Promotion Series No. 95.) This bulletin deals with the resources and production of mica in different countries of the world and the international trade in this product. A brief bibliography is included. Price, 15¢.

— *Mica in 1928,* by B. H. Stoddard. (Bureau of Mines. Mineral Resources of United States, 1928, Pt. II, pp. 607-614.) Price, 5¢.

Monthly Summary of Foreign Commerce of United States, Mar., 1930. Parts I and II. (Bureau of Foreign and Domestic Commerce.) Part I contains statistics of exports of domestic merchandise, and imports by articles for March, 1929 and 1930, and for three months ending March, 1929 and 1930. Part II contains summaries of export and import trade, monthly average import and export prices, and statistics of trade with Alaska, Hawaii, and Porto Rico. Single copies, Part I, 10¢; Part II, 5¢. Annual subscription, \$1.25.

Motion pictures. *European Motion-Picture Industry in 1929.* ii+71 pages. (Bureau of Foreign and Domestic Commerce. Trade Information Bulletin No. 694.) Study of motion picture developments in the different European countries during 1929. Price, 10¢.

Motor Boats. *Regulation of Motor Boats.* 4 pages. (Department of Commerce. Circular No. 236.) Text of the law and regulations promulgated thereunder by the Department of Commerce regarding equipment for motor boats.

CHIEF FUNCTIONS OF THE DEPARTMENT OF COMMERCE

R. P. LAMONT, Secretary of Commerce

JULIUS KLEIN, Assistant Secretary of Commerce.

EPHRAIM F. MORGAN, Solicitor

AERONAUTICS BRANCH

CLARENCE M. YOUNG, Assistant Secretary of Commerce for Aeronautics

Establishment of civil airways and maintenance of aids to air navigation; inspection and registration of aircraft and licensing of pilots; enforcement of air traffic rules; investigation of accidents; encouragement of municipal air ports; fostering of air commerce; scientific research in aeronautics; and dissemination of information relating to commercial aeronautics. (Some of these functions are performed by special divisions of the Lighthouse Service, the Bureau of Standards, and the Coast and Geodetic Survey.)

BUREAU OF THE CENSUS

WILLIAM M. STEWART, Director

Taking censuses of population, mines and quarries, water transportation, and religious bodies every 10 years; censuses of agriculture and electrical public utilities every 5 years; and a census of manufactures every 2 years.

Compilation of statistics of wealth, public debt and taxation, including financial statistics of local governments, every 10 years; annual compilation of financial statistics of State and municipal governments.

Compilation of statistics of marriage, divorce, births, deaths, and penal and other institutions annually, and of death rates in cities and automobile accidents weekly.

Compilation quarterly or monthly of statistics on cotton, wool, leather, and other industries; annually of forest products; and publication monthly of Survey of Current Business.

BUREAU OF FOREIGN AND DOMESTIC COMMERCE

WILLIAM L. COOPER, Director

The collection of timely information concerning world market conditions and openings for American products in foreign countries, through commercial attaches, trade commissioners, and consular officers, and its distribution through weekly Commerce Reports, bulletins, confidential circulars, the news and trade press, and district and cooperative officers in 65 cities.

The maintenance of commodity, technical, and regional divisions to afford special service to American exporters and manufacturers.

The compilation and distribution of lists of possible buyers and agents for American products in all parts of the world and publication of weekly lists of specific sales opportunities abroad.

The publication of statistics on imports and exports.

The study of the processes of domestic trade and commerce.

BUREAU OF STANDARDS

GEORGE K. BURGESS, Director

Custody, development, and construction of standards of measurement, quality, performance, or practice; comparison of standards used by scientific or other institutions; determination of physical constants and properties of materials; researches and tests on materials and processes; and publication of scientific and technical bulletins reporting results of researches and fundamental technical data.

Preparation of specifications for Government purchases, through the Federal Specifications Board.

Collection and dissemination of information concerning building codes and the planning and construction of houses.

Establishment of simplified commercial practices through cooperation with business organizations in order to reduce the wastes resulting from excessive variety in commodities.

BUREAU OF MINES

SCOTT TURNER, Director

Technical investigations in the mining, preparation, and utilization of minerals; including the study of mine hazards and safety methods and of improved methods in the production and use of minerals.

Testing of Government fuels and management of the Government Fuel Yard at Washington.

Research on helium and operation of plants producing it.

Studies in the economics and marketing of minerals and collection of statistics on mineral resources and mine accidents.

The dissemination of results of technical and economic researches in bulletins, technical papers, mineral resources series, miners' circulars, and miscellaneous publications.

BUREAU OF FISHERIES

HENRY O'MALLEY, Commissioner

The propagation and distribution of food fish and shellfish; in order to prevent the depletion of the fisheries; investigations to promote conservation of fishery resources; the development of commercial fisheries and agriculture; study of fishery methods, improvements in merchandising and collection of fishery statistics; administration of Alaska fisheries and fur seals; and the protection of sponges off the coast of Florida.

BUREAU OF LIGHTHOUSES

GEORGE R. PUTNAM, Commissioner

Maintenance of lighthouses and other aids to water navigation. Establishment and maintenance of aids to navigation along civil airways.

Publication of Light Lists, Buoy Lists, and Notices to Mariners, giving information regarding these aids to navigation.

COAST AND GEODETIC SURVEY

RAYMOND S. PATTON, Director

Survey of the coasts of the United States and publications of charts for the navigation of the adjacent waters, including Alaska, the Philippine Islands, Hawaii, Porto Rico, the Virgin Islands, and the Canal Zone; interior control surveys; magnetic surveys; tide and current observations; and seismological investigations.

Publication of results through charts, coast pilots, tide tables, current tables, and special publications.

BUREAU OF NAVIGATION

ARTHUR J. TYREE, Commissioner

Superintendence of commercial marine and merchant seamen. Supervision of registering, enrolling, licensing, numbering, etc., of vessels under the United States flag, and the annual publication of a list of such vessels.

Enforcement of the navigation and steamboat inspection laws, including imposition of fees, fines, tonnage taxes, etc.

STEAMBOAT INSPECTION SERVICE

DICKERSON N. HOOVER, Supervising Inspector General

The inspection of merchant vessels, including boilers, hulls, and life-saving equipment; licensing of officers of vessels; certification of able seamen and lifeboat men, and the investigation of violations of steamboat inspection laws.

UNITED STATES PATENT OFFICE

THOMAS E. ROBERTSON, Commissioner

The granting of patents and the registration of trade-marks, prints, and labels after technical examination and judicial proceedings.

Maintenance of library with public search room, containing copies of foreign and United States patents and trade-marks. Recording bills of sale, assignments, etc., relating to patents and trade-marks. Furnishing copies of records pertaining to patents.

Publication of the weekly Official Gazette, showing the patents and trade-marks issued.

RADIO DIVISION

W. D. TERRELL, Chief

Inspection of radio stations on ships; inspection of radio stations on shore, including broadcasting stations; licensing radio operators, assigning station call letters; enforcing the terms of the International Radiotelegraphic Convention; and examining and settling international radio accounts.
