Director's Message

In this issue of the *Survey of Current Business*, we discuss the recently updated [Integrated Industry-Level Production Account](#), an ongoing collaboration between the Bureau of Economic Analysis and the Bureau of Labor Statistics. New statistics for 2020 and updated statistics for 1987–2019 are presented, along with a retrospective analysis of the sources of economic growth and the COVID-19 recession.

Our “[GDP and the Economy](#)” article this month discusses the second estimate of gross domestic product for the first quarter of 2022, and a separate article details [government receipts and expenditures](#), also for the first quarter.

As is usual in June, we provide a [subject guide](#) to articles that have appeared in the *Survey* in the first half of this year.
